FIRST EDITION.

HARRISBURG.

Proceedings of the Legislature.

The Clandestine Marriage Bill Passed—Bill to Incorporate the Masonic Home—Adjournment Until Monday.

Special to the Pittsburgh Press.

HARRISBURG, PA., April 28, 1871.

SENATE.

Mr. Anderson introduced a bill incorporating the Duquesne Library Company.

Democratic Strategy Defeated.

Mr. Davis reported an unimportant House bill relating to contested elections in wards and boroughs, with an amendment by the Committee, tacking on the Democratic Philadelphia Registry amendment, which the Republicans discovered in time to prevent the suspension of the rules to put the bill on its final passage.

Miscellaneous.

Mr. Petriken's bill prohibiting a change of school books more than once in three years passed a second reading.

The bill authorizing Robert H. Kerr to hold the office of Alderman in the Ninth ward, Pittsburgh, while his residence is in McClure township was passed.

Mr. Anderson amended the Loan Bank bill by striking out the clause making it a bank of discount or issue.

Mr. Rutan's bill relative to clandestine marriages passed with his amendment making clergymen and justices liable only where they knowingly and willfully marry minors without the parents' consent.

A bill from the House allowing Knap Fort Pitt Foundry to test cannon in Patton township passed.

The bill authorizing proposals for the publication of the *Legislative Journal* for two years was postponed.

The resolution from the House recalling from the Governor the bill changing the terms of the Supreme Court in the Western and Northern Districts was concurred in.

HOUSE.

Masonic Home.

Mr. Humphreys introduced and had passed a bill incorporating the Masonic Home of Pennsylvania.

Hospitalities Extended to the President.

Mr. McJunkin offered the following.

Resolved, That the hospitalities of the House of Representatives of Pennsylvania be extended to Ulysses S. Grant, President of the United States, now in this city on a brief visit, and that a committee of three be appointed to convey to him information of the passage of this resolution.

Adopted unanimously, and the chair appointed Messrs. McJunkin, Smith, of Dauphin, and Schnatterly as said committee.

ADJOURNMENT.

Mr. Reinoehl moved an adjournment to May 10 which was lost—yeas 52, nays 36—it requiring two-thirds to suspend the rules.

Mr. McJunkin, from the committee appointed to extend the hospitalities of the House to President Grant, reported that the President regretted his inability to be present, being obliged to leave for Washington at eleven o'clock to meet engagements.

Mr. Robb had a resolution passed recalling from the Governor the bill passed yesterday, changing the terms of the Supreme Court for the Western and Northern districts.

The bill incorporating the American Press Association passed both Houses.

The Legislature adjourned till Monday evening.

AN ACT TO PREVENT TRESPASSING ON RAILROAD CARS.

The following is a copy of an act passed by the Legislature, the object of which is to put a stop to the too prevalent practice of jumping on cars while in motion, from which many fatal accidents have occurred. It is entitled "An act to prevent trespassing upon railroad cars:"

SECTION 1. *Be it enacted, etc.*, That any person wilfully entering in or upon any railroad car, whether the same be passenger, freight, coal or other car, contrary to the rules of the corporation owning the same, without paying fare, shall forfeit and pay a penalty of not less than one dollar nor more than five dollars, which shall be paid to the treasurer of the school district in which such offense is committed, for the use of said school district; and any constable or police officer having knowledge of the violation of this act may forthwith arrest the offender; and the magistrate shall proceed to determine the matter in issue, and if he shall convict the person so charged he shall proceed to pronounce the forfeiture against the person convicted; and if the person convicted refuse to satisfy such forfeiture immediately, then the magistrate shall commit the offender to jail for a period not exceeding ten days; *Provided*, That nothing herein contained shall be held to prevent the prosecution and conviction of any person who may falsely personate another with a view of riding in any passenger car without payment of fare.

BORDER CLAIM BILL.

Thursday afternoon the border claim bill came up for consideration, and on motion of Mr. Buckalew was amended by striking out all in regard to the payment of interest; by reducing the annual amount to be paid from $170,000 to $150,000, and by limiting the time of annual payment to five years.

Mr. White moved to amend so that the act could not be construed to make the State in any way liable for the ultimate payment of the principal of the certificates provided for in the act.

Mr. White's amendment was lost by the following vote:

YEAS—Messrs. Albright, Allen, Anderson, Billingfelt, Brooke, Delamater, Evans, Graham, Knight, Olmsted, Rutan, Turner and White—14.

NAYS—Messrs. Brodhead, Buckalew, Connell, Crawford, Davis, Dechart, Dill, Duncan, Findley, Henszey, Miller, Mumma, Nagle, Osterhout, Petrikin, Purman, Randall and Wallace, Speaker—18.

The bill then finally passed by the following vote:

YEAS—Messrs. Brodhead, Buckalew, Connell, Crawford, Davis, Dechart, Dill, Duncan, Findlay, Henszey, Miller, Mumma, Nagle, Osterhout, Petrikin, Randall and Wallace, Speaker—17.

NAYS—Messrs. Albright, Allen, Anderson, Billingfelt, Brooke, Delamater, Evans, Graham, Knight, Olmsted, Purman, Rutan, Turner, Warfel and White—15.

Proceedings of Parliament.

LONDON, April 28.—Last night Disraeli, notwithstanding the concessions made by the government, made an unsparing attack on the budget. He said the government, in frantically abandoning its other proposals to save the tax expense on income, had abandoned its dependence on direct taxation, while he depricated further imposts on agriculture. He equally deplored leaving the deficency to increase year by year. He said the Chancellor of the Exchequer in 1869 erred in giving up indirect taxes, and he now sought to replace them by an addition to direct taxation. Chancellor of the Exchequer Law defended the reconstructed budget and accepted the postponement of its consideration to Monday next.

THE WEATHER.

Synopsis of Observations by the United States Signal Corps for the Past Twenty-Four Hours—Probabilities.

WAR DEPARTMENT,
OFFICE OF CHIEF SIGNAL OFFICER,
WASHINGTON, D. C., April 28, 1871.

Synopsis for the past twenty-four hours: The barometer has risen slowly, with a falling temperature on the Pacific coast, but has fallen with a rapid increase of temperature at Rocky Mountain stations. The area of the lowest pressure is now in Upper Canada. The rains which Thursday evening prevailed on the Southern Atlantic and on the lower lakes, have ceased entirely in the former districts. At present they are confined to the Eastern Atlantic coast, with occasional local rains in Western Pennsylvania and Wisconsin. Clear or clearing weather prevails in South and West Kentucky. The barometer has fluctuated somewhat in the Central and Southern regions. It has risen on the upper lakes, but is now generally quite low and falling everywhere east of the Mississippi and south to Key West, Florida.

PROBABILITIES.

It is probable that fresh and brisk winds from the Southwest and Northwest will prevail from Pennsylvania West and South to the Mississippi and on the lakes. Small local storms will probably pass over the Middle and Eastern States, with cloudy weather Saturday.

NEWS SUMMARY.

BY TELEGRAPH.

A vein of anthracite coal has been discovered in a stone quarry at Monroe, Orange county, New York, a station on the Erie Railroad. There are valuable iron mines at this point. Experienced geologists say that there are indications of the existence of a coal bed below the level of the vein. A company has organized to make further investigations.

The steamer Kansas, just arrived at Key West, from the Tehuantepec Exploring Expedition, reports that a practicable route for a canal across the Isthmus of Teuhantepec has been found.

A dispatch to the Cleveland *Herald* from Warren, Ohio, states that the sash and blind factory and planing mill of B. F. Huner & Co., was totally destroyed by fire yesterday afternoon. Loss $8,000; insurance $5,000.

In the Superior Court at Litchfield, Conn., yesterday, the jury, in the case of Joel Perkins, charged with murder and incest, brought in a verdict of guilty of murder in the second degree, which sends him to the State prison for life.

At a meeting of the Mahanoy Valley and Locust Mountain Coal Association, yesterday, at Mahanoy City, Pa., it was unanimously resolved that the meeting recommend the committee of fifteen to adhere to the offer at Philadelphia, April 22, that on and after Monday, May 1st, the wages, whether for dead work or otherwise, will be at the rate offered by the committee of fifteen at Philadelphia on the 22d. This association represents two-thirds of all the tonnage from the Schuylkill country.

The trial of Joel W. Perkins, charged with incest and murder, was continued at Litchfield, Conn., yesterday. His five daughters testified, four of them asserting that they saw him strangle one child to death. Perkins himself also testified, denying that he was guilty of murder, but confessing the other charges.

A Havana telegram of yesterday says: Valmaseda will leave Moron to-day to visit the military line. Maximo Gomez, commanding seven hundred insurgents, invaded the jurisdiction of Gebara. They were repulsed at Sama and Bariary, and one of their officers captured. The San Juan de la Puerea volunteers, under Fray Benito, attacked Gomez in the Sierra Verde Mountains, captured his intrenchments, and killed nine men. Three of the volunteers were killed. The insurgents in the Central Department make a practice of filling the drinking wells with carcasses of dead animals. The insurgent leaders, Colonel Mercar, Major Voga and Lieutenant Cordon, together with a number of private soldiers, have surrendered at Guamaro. It is reported that Bambetta has left the Island.

RAILWAY MATTERS.

Lease of the New Jersey Railroads

By the Pennsylvania Railroad Company—Authoritative Contradiction of the Report that the Baltimore and Ohio Company had Obtained Control of the Cleveland and Pittsburgh Road.

LEASE OF THE UNITED RAILROADS OF NEW JERSEY BY THE PENNSYLVANIA RAILROAD COMPANY.

NEW YORK, April 28.—The united railroads of New Jersey, comprising the New Jersey Railroad and Transportation Company, Camden and Amboy Railroad Company, the Philadelphia and Trenton Railroad, and the Delaware and Raritan Canal Company have been leased by the Pennsylvania Railroad Company, which agrees to pay 10 per cent. per annum on the capital stock, and to assume all their obligations.

THE ERIE SUITS.

Judge Blatchford to-day sustained Jay Gould's demurrer to the suit of the English Erie stockholders, holding that Chas. Burt cannot bring suit and that consequently, because he was joined with others as plaintiffs, the bill cannot be sustained. The other grounds of demurrer were dismissed. The result is the English stockholders are so far defeated and must amend their bill, which Judge Blatchford granted leave to do, before the case can proceed. The decision is also fatal to the Ramsey suit against the Erie Railway, for it cites that a plaintiff who was a stockholder cannot maintain suit, even though owning stock.

RESUMPTION OF THE COAL CARRYING TRADE.

The Erie Railway Company gave orders yesterday to have all the unused locomotives put in a condition to begin hauling coal by the first of next month. There is a great rejoicing among employees. Many of the engineers, conductors, firemen and brakemen have made only half time during the suspension of coal mining, while the others have been altogether idle. During the summer of 1870 the regular trains running between Hawley and Port Jervis carried 720 cars of coal per day. Nearly all of this was shipped to Newburg or Jersey City, and belonged to the Pennsylvania Coal Company. A large quantity was also carried on ordinary freight trains to points along the line. It is expected that the rolling stock will prove inadequate to the demands which will be made upon it by the coal traffic the present year.

THE REPORTED "GOBBLING UP" OF THE CLEVELAND AND PITTSBURGH RAILROAD—AN AUTHORITATIVE STATEMENT OF THE FACTS.

[From the Philadelphia Ledger.]

Upon inquiry as to the truth of the statements contained in the Pittsburgh papers relative to the Baltimore and Ohio and Lake Shore Railroads controlling the Cleveland and Pittsburgh Road, we find the following to be the facts: 1. That no such offer as that recited was ever made to the Pennsylvania Railroad Company. 2. That the contract is not terminable in one year, but continues for seventeen years, and cannot be terminated without the joint consent of both companies. 3. That the contract is enforceable in either Pennsylvania or Ohio. 4. That the Pennsylvania Railroad Company, the lessee of the Fort Wayne, has no desire whatever to purchase the stock. 5. That they will not lease it for the next seventeen years, unless it can be made very largely to their interest to assume the responsibility. 6. That all the speculations in that stock recently have been upon the stories of adventurers in Wall street and elsewhere. 7. That neither the Baltimore and Ohio Railroad Company nor the Lake Shore is likely to buy the stock of a company situated by contract as the Cleveland and Pittsburgh is at present. The managers of both lines are far too prudent to indulge in any such enterprise.

THE BALTIMORE VERSION.

[From the Baltimore Sun.]

It will be provided in due time by the proposed Baltimore, Pittsburgh and Chicago extension, for which ample surveys have been already made over various routes, the people in every direction in that quarter taking the liveliest interest in the subject, and offering inducements, facilities and means towards the construction of the line. There is great competition, indeed, to secure the location of the line over the respective routes, and the data are now in hand, carefully reduced to exact results by the distinguished engineer in charge, by which to determine that question. It is demonstrated that a far cheaper construction can be accomplished on either route proposed than has been on any other of the great trunk lines, and the Baltimore and Ohio Company will be prepared to make in the outset a two million stock subscription, in cash, to the work. Other aid will also be obtained in this quarter, and with the enterprising interests earnestly seeking to embrace the project at Pittsburgh and beyond the Ohio as far up as Chicago, it is not doubted that ample means will promptly be secured for the consummation of the work. That is the "flank movement" that Baltimore intends in that quarter, giving an actually competing road—not a sham one, entering into combinations to put up rates—with the New York and Pennsylvania lines. With the change of gauge in the Ohio and Mississippi Road, now about taking place, to conform with that of the Baltimore and Ohio Road, and the Baltimore, Pittsburgh and Chicago extension completed, we will then command the two great extreme points in the Southwest and the Northwest, with all their rich affluents—St. Louis, on the Mississippi, and Chicago, on the lakes. In this connection we may note the inaccuracy of the statement also which has been made in the West, and copied East, indicating an alliance between the New York Central and the Baltimore and Ohio for the change in the gauge of the Ohio and Mississippi road. The Central road arranges with the Baltimore and Ohio road, for the use, in common, of the seven miles of road called the Cincinnati and Baltimore (practically a branch of the Marietta), as a means of getting into Cincinnati, and as there is a common gauge for all these roads, whatever business the New York Central can get from the Ohio and Mississippi, with over 293 miles in favor of the Baltimore route, will thus be subserved.

POLITICAL.

CINCINNATI, April 28.—The *Gazette* of to-morrow will say, in an article favorable to the nomination of Hon. B. F. Wade for Governor, that while he does not desire that or any other office, if feels warranted in saying that if the Convention should deem it best to nominate him he would not decline.

TARIFF TALK TO THE PRESIDENT.

The St. Louis Iron Mills Express Themselves—Speech of Hon. Henry T. Blow.

When Gen. Grant visited St. Louis a few days ago, an excursion was arranged to some of the iron concerns, where an entertainment with toasts and speakers was provided. The President's health being proposed he in turn proposed the health of the Hon. Henry T. Blow, of St. Louis, late Minister to Brazil, who spoke as follows:

I feel greatly indebted to you, sir, for the compliment just paid me. In rising to respond, and looking at my pleasant surroundings, I am reminded that our Chief Executive has before him the coming man—the iron man—the happy individual who is to be foremost in the settlement of that vexed question, the tariff.

My friends, what I will have to say to you on the impulse of the moment must be charged up to patriotism, not politics. I utterly discard the idea of that great statesman, Senator Morton, that any party can bring the tariff question into the next election, or keep it long before the public. We of the Mississippi Valley are rapidly drawing that question to a wise solution. The very men who have to-day contributed so much to our entertainment are practically working out the great problem. The beautiful iron that flowed in golden streams before your very eyes at the Vulcan works to-day is sold for $32. Competition under a ludicrous tariff has produced this result, while with the protection without this competition would make it worth $37, and in fact the price in Pittsburgh to-day for the same quality of iron is about $37. This competition, this combined wealth of coal and iron, has produced this wonderful result at home. How is it abroad? Where is our great competition, and on what kind of a basis to-day rests this world wide interest? Our eyes naturally turn to England. Well, what of the England of its day? Only this and nothing more. She is wholly engaged in the development of the material. She has neglected the masses of the people, or oppressed them. She has denied to them moral and intellectual growth. She has lost sight of her past glory and is fast losing her prestige as a first-class power. I would really feel, my friends, that I had poorly discharged my duties as a public servant if I failed on this, the first opportunity I have had since my return, to speak as I have, and I intend to do so freely, on this subject, to my countrymen, and detail as briefly as possible just a little bit of my iron experience in England.

While I was sojourning in the Empire of Brazil I had ample time and excellent opportunities of studying the course of the world's trade. I noticed in this very article of iron and its products the general competition which had sprung up between nations. England, Germany and Belgium were the contestants, but in the grander manipulations of pig iron (England still being pre-eminent in the production of pig metal) the contest was between England and Belgium. I sailed for Europe, and reaching England, wanted to know more of this conflict. Good fortune favored me. Kind friends had commended me to some of England's most worthy iron men, and I also had the advice and assistance of the excellent charge d'affairs, Hon. M. Moran. The largest "iron man" in England, when I asked him for an explanation of this splendid result for Belgium, explained it thus: Sir, he said, Belgium is very small, but her lands are very rich and productive, her labor most excellent and *cheap*, even cheaper than England, and now that we are overcoming her boasted ability to produce *wrought* iron work cheaper than *we have*, we are bound to confess that we exhausted our ingenuity to devise means without debasing labor, and failed. This was enough for me; but he said more. He stated that the iron ores which had enriched England were poor ores, but cheap and abundant, and made to yield by admixture with richer ores which were scarce and high, and *lately* so very scarce and high that the furnaces had to be supplied from new sources, and even the shores and the inlands of the Mediterranean were sought for supplies. I had frequent conversations with him and other gentlemen on this subject. From one I learned beyond all question that every class in the iron districts was taxed to meet the Belgian competitor, and that boys and girls were not trained, as with us, in schools and shops, but that their training was for the development of the muscle, that they might be worked alongside of the most degraded laborer in the iron districts to swell the material power of old England. The foreman of Shoenberger's furnace in Pittsburgh, who has just traveled over England, is my authority for saying that the degradation of women in the iron districts of England and Wales is fearful, and that he saw thousands who had no sense of shame, and yet, notwithstanding all of this, notwithstanding this terrible pressure on labor, in the face of cheap capital and established interests, we have the combination of coal and iron in this great valley, which is rapidly making us independent, skilled labor and mechanical appliances which and this result, and only ask one other boon to make us as pre-eminent in manufacturing as we are in agriculture.

Do you inquire what this *boon* is? It is simply this and nothing more, *a stable tariff*, not a high tariff, not a tariff too low for revenue, but a just tariff, and above all give it to us in a stable form; let the capitalist rest upon something substantial, let the laborer contemplate his future without fear, and this the age and our intelligence demands—this and nothing less will be granted by all parties, and that soon.

I beg your pardon, gentlemen, for being thus as it were, drawn into the discussion of any question on this, to me at least, most happy occasion. To-day we are all united, but one sentiment rests in our bosoms; it is the love and pride of country, and I can safely say that our distinguished guest who we all delight to honor at least as the Chief Executive of our beloved country, is in sympathy with every movement and every policy which is to ennoble labor, pay labor, reward capital and crown enterprise with success.

God grant that the hour of our material triumph be near at hand, and that we will soon begin to lay the foundation of policies which will allow us to meet England and Germany in fair competition for the trade of the world.

Summary of News from Paris—Nothing of Great Importance Transpiring.

PARIS, April 28.—The Commune has forbidden requisitions on the property of foreigners.

The *Mot D'Ordre*, of last evening, alleges that the people of Tolouse have risen in insurrection, and that many of the streets are filled with barricades.

The Versaillists' batteries at Courbevoie yesterday bombarded the Mailiot Gate and the Arc de Triumph.

The Communists have established a battery on the road to Asneieres for the purpose of bombarding Cunneviliier, Colombes and Courbevoie.

The bombardment of the Southern forts yesterday was feebler than formerly. The calibre of the Versailles guns is small. The firing of the Communists is increasing.

The Free Masons will plant their banners on the ramparts of Paris on Saturday, and assist in the defence of the city.

The Governor of the Invalides has been arrested.

An official statement has been published, giving the losses in killed and wounded, besides 3,000 prisoners.

Rumored Capture of Fort Issy.

LONDON, April 28.—The *Telegraph* of to-day has a rumor that the Versailles army has taken the advanced works at Fort Issy. The barracks of the fort are entirely destroyed, and there is a breach in the wall at least four yards square.

The Versaillists yesterday expelled the Communists from an important position in the village of Leo Maulerieaux and occupied it in considerable force.

The Communists have established batteries at St. Orien gate, in the Mont Martre.

NEW YORK, April 28.—A special from Paris, dated midnight on the 26th, says: The declaration of Bismarck that the northern forts shall remain in the hands of the Germans, gives great satisfaction to the Communists.

The gens de'armes in St. Denis are becoming numerous, and the loyal National Guards there have been organized.

M. Seguin, Chief of the War Office, attempted to reach Versailles, but was arrested at the outposts. Dr. Debors advanced to explain that M. Seguin was a staff officer arranging the positions of the advanced posts, and he was arrested also, but afterwards liberated.

Gen. Rappele, says a correspondent of the London *Times*, has been arrested.

It is stated that while the Prussians hold St. Denis the Northern Railway will remain open and carry provisions to the city.

At two o'clock this morning heavy musketry firing was heard in the direction of Bas Mendon. In this attack the infantry lost very heavily.

The gunboat "Fancy" was disabled, and returned to Port De Laconcorde at five o'clock this afternoon with difficulty. All hands were kept pumping the vessel.

Fighting at Bas Mendon still continues.

The buttresses of Mont Martre are being heavily fortified.

On Monday night a balloon started secretly from College Rollin.

Traffic in Merchandise Forbidden by the Communists.

PARIS, April 27—Evening—The Commune has forbidden all interference with traffic in merchandise and the management of railways. The Commissariat is provisioned for a long period. A last delay of forty-eight hours has been granted to persons between the ages of nineteen and forty to join their battalions in the national guards. Free Masons have informed the Commune that, having exhausted all means of conciliation at Versailles, they have resolved to plant their banners on the ramparts of Paris, and should they be struck, will march against the Versaillists and appeal to their brother Masons to join them.

The Investment of Paris Completed—Fort D'Issy Silenced.

VERSAILLES, April 27, *via* LONDON, April 28.—Thiers in a speech to the Assembly to-day tells the country that the situation is painful. French blood is still flowing; but it is consoling to know that the denouement is near. All are doing their duty, especially the army, to which he alluded in terms of high eulogy. It is, said Thiers, commended Chevalier, who without fear and without reproach completely unfettered in his actions, has now completed the investment of the works of Paris and commenced active operations. Fort Issy has been silenced and Les Monlin, Ceaux captured. We, continued the speaker, are not assailants. We are the defenders of law and order. We wish conciliation, but we also wish to save Liberty from Despotism and from unbridled lions. After eloquently defending the republicanism of the Assembly, Thiers concluded as follows: The insurgents are isolated and all France is with the government and Assembly in our efforts to combine unity with liberty.

Communist Reconnoisance—The Versaillists Driven Before Them—Government Troops Repulsed at Clamart.

PARIS, April 28.—The Communists have made a reconnoisance towars Bagneaux on the south of Paris, driving the Versailles forces before them.

The Versaillists have made three attacks upon the railroad station at Clamarat, and were repulsed on each occasion.

The Clicky batteries have silenced the fire of the Versailles batteries at Asniers and Fort Dumont. Valeneir is firing actively to-day with ten heavy guns.

General Dombrowski reports that vigorous attacks have been made upon his advanced posts, and the Eightieth battalion was forced to abandon the barricade in Avenue Pigmenet, Neuelly, but the Ninety-fourth battalion drove back the enemy and recaptured the barricade. The General adds that "we hold all our positions. The enemy has retired along the whole line, and firing has ceased." In Fort Vanvres one piece of artillery has been dismounted, and Fort Issy is crippled, but the Communists claim that they can hold both these forts indefinitely.

The Republican League of Paris urges the assemblage of a Congress at Lyons or Grenable to frame an honerable arrangement for peace.

Communists Defeated at Les Bruyere de Sevres—Prussian Battery Captured by the Insurgents—Its Restoration Demanded.

LONDON, April 28.—A dispatch from Versailles says the Communists have been defeated at Les Bruyere de Sevres, and some of their officers captured.

Advices from Paris say the Communists have, through mistake, attacked and captured a Prussian battery. Its restoration has been demanded.

A new journal, called *Paix*, has appeared in Paris, but will probably soon be suppressed.

The Ottoman embassy in Paris have been struck by two shells. The harbor of Kiel is open for navigation.

Rights of Neutrals—The Taking of Molineaux.

LONDON, April 28.—A *Tribune* special from Paris, yesterday, says: Groiesset announces that the persons and goods of foreigners shall be protected under guarantee of the rights of neutrals and proverbial hospitality of France, and that no furniture, carriages, horses or apartments of foreign citizens shall be subject to requisitions.

A dispatch from Versailles says Thiers, in the course of some remarks in the Assembly, was moved to tears, when he declared he was disposed to clemency, except for the murderers of Generals Thomas and Lecomte, and that he should only remain President during military operations. He said the taking of Molineaux was of great importance, as the musketry range thence reached the middle of Fort Issy.

The Prussians have summoned the insurgents to quit St. Ouen. Bordone has been arrested at Marseilles.

Retaliatory Decrees.

PARIS, Evening, April 27.—The Commune has issued decrees in retaliation for the cutting off of cattle, milk and fish supplies. No goods trains will leave Paris at present. Passenger trains, however, continue to depart, but nobody is visible in them. Fort Issy fired some shells so badly aimed that they fell on the Plateau of Chatillon. An armor-clad locomotive is shelling Chateau Becon vigorously.

The Prussian Patrol has informed the Mayor of St. Omer that the six seige guns removed from the redoubt by the National Guards must be restored.

Petroleum shells fired by the insurgents have set fire to Chateau Meudon.

Further Credit Asked.

VERSAILLES, April 28.—In the Assembly to-day, Ponier Quertier, Minister of Finance, asked for a fresh credit to provide for the subsistence of German troops according to the preliminary terms of peace. He said all the engagements made with Germany should be scrupulously kept, and all sums due paid.

Proposal to Shoot the Archbishop of Paris.

BRUSSELS, April 28.—The *Etoile* publishes reports from Paris that four National Guards taken prisoners by Versaillists having been shot, that a proposal was made in the Commune to shoot the Archbishop of Paris in retaliation for the outrage, but it was rejected.

Destructive Fire at Warren, Ohio.

Special Dispatch to the Commercial.

WARREN, OHIO, April 28, 1871.

A fire broke out in the sash and blind factory of B. F. Heiner & Co. at 12:15 P. M. to-day, and the factory is a total loss. The dwelling house of David Drennan is totally destroyed. The loss on the factory is $18,000; insured for $5,000 in the Lycoming of Pennsylvania. Loss on dwelling house $3,000; insured for $2,000 in the Lorillard of New York. By great exertions the fire was confined to these two buildings, although there was a strong wind blowing at the time. The furniture in M. B. Taylor's house was damaged considerably by water and in taking it out of the house, covered by insurance in the Knox Mutual. Our steamer burst a flue while working. The steamer at Niles, which was sent for, arrived here thirty-five minutes after the telegram was sent.

NEW YORK.

NEW YORK, April 28, 1871.

THE KNICKERBOCKER INSURANCE COMPANY.

The statement that serious charges have been made of a nature to the effect that the standing of the Knickerbocker Life Insurance Company of this city is found to be without foundation.

YACHT CLUB HOUSE SOLD.

The club house of the New York Yacht Club, Staten Island, sold to-day at $16,000.

DEATH OF AN AGED LAWYER.

Colonel Joseph W. Scott, the oldest member of the New Jersey bar, and formerly Grand Master of Masons of that State, died at New Brunswick last night, aged ninety-three.

Mr. Wells's Idea.

Mr. David A. Wells delivered a lengthy address in Cincinnati, Thursday evening, on the "Industrial and Financial Condition of the Country," in the course of which he said:

"I recognize fully that the government, by a maintenance during the last ten years of a high protective policy, has afforded a bounty and an encouragement for certain special investments of capital; and any pledge that might have been thus indirectly given, I would withdraw gradually and with sufficient notice to allow of preparation. Besides which, I think that the work of currency reform should go hand-in-hand, and be made co-ordinate with tariff reform. And with these reforms accomplished, the industry of the country in every department would become practically independent of legislation, and be placed substantially upon the basis of prosperity which it enjoyed in 1859-60."

Work of the High Commission Nearly Completed.

Another Commission to Follow, to Settle the More Important Question—Remarkable Case of Political Sharp Practice—Population of the United States Less than 39,000,000—Singular Scene in Court—Bolster Sentenced to be Hung, &c., &c.

Special Dispatch to the Commercial.

WASHINGTON, D. C., April 28, 1871.

The Work of the High Joint Commission Nearly Ended.

It is now evident that the Joint High Commission has about finished its labors, and that little remains to complete the work. It is stated to-day that the report which will be submitted to the Senate will involve recommendations for the settlement of only such questions as have a local bearing here, such as the San Juan boundry, the fisheries and the navigation of the St. Lawrence. The Alabama claims and damages claimed by British subjects in the South, by reason of acts done during the rebellion, have involved principles of international law in which there could be no agreement, and hence has necessitated, in the opinion of the Commission, the appointment of a further board, whose duty it shall be to finally decide all these disputed legal differences. This board of arbitration, it is proposed, shall consist of five members, to be selected from the following countries: The United States, Brazil, England, Prussia and Russia. On these questions the Commission have but acted in the capacity of a jury to agree and determine upon the facts, leaving all other considerations to be settled hereafter.

Remarkable Case of Sharp Practice.

A certain Idaho Judge, who has just arrived here, relates a case of sharp political practice in that Territory which, in novelty, goes ahead of anything that has come to light for a long time. A certain lawyer in that locality, taking umbrage at some fancied insult put upon him by the Court over which this Judge presided, conceived the idea of writing a letter of resignation to the President and forging the signature of this judicial officer thereto. The letter was received here by the President in due time, and was couched in such forcible, not to say insulting, language as to lead the chief executive to nominate his successor at once. The first that the judge learned of these proceedings was upon the arrival of his successor, who proceeded to enter upon the duties of his office without regard to protests. Our judge, justly indignant, came on here and was apprised of the facts as stated above. He will await the return of the President and see what steps will be taken in the matter.

The Population.

The Census Bureau to-day, in compliance with a resolution of the Senate at the last session, furnishes complete returns of the last census, which will only be subject to a few slight changes in Western townships. The total population of the States is 38,104,840; Territories and District of Columbia, 442,694; total, 38,547,534. The Census Bureau expects to complete the first volume of reports, embracing statistics of population, in three months. It is now too late to make a preliminary report, as originally intended, as more complete details will be forthcoming before they will be required by Congress. The reports on social and industrial statistics are in such an incomplete shape, requiring so many corrections, alterations and amendments, that it is not expected they will be ready for at least one year.

Singular Closing Scene in a Murder Trial.

Horatio Bolster, who was yesterday convicted of the murder of Joseph James, was to-day sentenced to be hanged on the ninth of June. In Court this morning a curious colloquy took place between Judge Olin and the prisoner. On the opening of Court, the latter asked and obtained consent to make a statement in his own behalf, and spoke nearly an hour, with frequent interruptions from the counsel and Judge. When he had concluded, Judge Olin rose to deliver sentence, but before doing so made extended remarks in the shape of a review of Bolster's career, and a lecture on the enormity of his crime and his hardened nature. The speaker, prisoner and spectators were several times affected to tears. The Judge's remarks were kindly meant, but seem to have had the effect of increasing the prisoner's anguish and the pain of his friends. The case has attracted great attention in the city, and the extraordinary proceedings in Court to-day are the theme of general discussion to-night.

WASHINGTON, April 27.

THE SUTRO TUNNEL COMMISSION.

The President has appointed Lieutenant Colonels Horatio G. Wright and John G. Foster, of the Corps of Engineers, members of the Commission to examine and report upon the Sutro Tunnel. Capt. Wm. R. King will act as Secretary to the Commission.

DESTRUCTION OF ILLICIT DISTILLERIES.

The Internal Revenue Supervisor for the District of Georgia and Florida reports the total destruction of property in his raids on illicit distilleries in that District, up to April 1, 1871, as follows: Eighty-three still worms complete and in position, 122,240 gallons beer mash, 1,794 gallons low wines, 390 gallons corn whisky, 700 gallons peach and apple brandy, 595 bushels corn meal, 879 bushels malt. Also, 60 illicit distilleries were suppressed, a large number of mules, horses and wagons seized, and sixty-two distillers arrested and turned over to the Deputy Marshal.

THE PRESIDENT

Has telegraphed to his family that he will return to Washington this evening.

MR. CORCORAN'S ILLNESS.

There is no material change in the physical condition of W. W. Corcoran, which to-day is considered very critical.

HORRIBLE DEATH.

A Man Literally Roasted Alive—Coroner's Inquest.

Between twelve and one o'clock Friday morning, a most horrible affair occurred on State alley, in the Eighth ward, resulting in the death of Mr. Henry Mellon, a well known citizen, who resided at the corner of Townsend and Franklin streets. Mr. Mellon was a carpenter by occupation, and occupied a small frame building on State alley as a shop. During the early part of the evening Mr. Hartman, Mr. Mellon's foreman, was in the shop with a candle. About eight o'clock Mr. Mellon went home and retired to bed. Between twelve and one o'clock there was an alarm of fire, and Mr. M. got up and partially dressed himself, went to his shop, which he discovered to be on fire. The deceased it appears entered the shop it is presumed for the purpose of getting his tool chest out, and just as he entered the flames burst out of the door and most probably suffocated him. No one saw him enter the shop it appears except a lady who lived near the place, and in the excitement he was not missed until after the fire had been extinguished, when a search was made and his charred body was found lying a few feet inside the door. The feet and legs to the knees were entirely consumed and the body was burned to a crisp. The Coroner held an inquest last evening when the jury returned a verdict of accidental death. The origin of the fire remains unexplained, but the prevalent impression is that it was incendiary.

The deceased was a brother of John Mellon, Esq. He was about fifty-five years of age and leaves a widow and seven children.

FATAL ACCIDENT.

A Man Run Over by a Wagon and Killed.

Between four and five o'clock last evening an accident occurred on Erin street, in the Eleventh ward, which resulted in the death of Timothy Donovan, a teamster in the employ of Peter O'Neil, a contractor. Donovan was engaged in hauling dirt to grade Erin street, with one of Mr. O'Neil's teams, and as he was passing McCallin's stable on Wylie avenue, saw a young horse which matched one he was driving, and was so much pleased with it that he asked and obtained permission to drive the two together. He took one of Mr. O'Neil's horses out, and hitched McCallin's in the wagon, and started on with his load. When he had reached Erin street the horses took fright at something and started to run away. They ran the wagon over an embankment at the side of the road, throwing Donovan from his seat, and the hind wheels of the wagon passed over his body, fracturing the pelvis bone and the left thigh. He was taken up and removed to a house near at hand, and Dr. Thorn summoned. Donovan lived about an hour after receiving the injury. The Coroner was notified, and held an inquest, and the jury returned a verdict in accordance with the above facts. Deceased was about thirty years of age, and leaves a wife and two children.

COURT PROCEEDINGS.

Common Pleas—Judge Stowe.

In the case of Holmes, Bell & Co. vs Weimer, Marshall & Co., the jury find and certify a balance in favor of defendants in the sum of $1,127 50.

The first case taken up was that of M. L. Malone vs Macrum & Carlisle; action to recover for work and labor done and materials furnished in repairing a building on Fifth avenue. On trial.

CITY MATTERS IN BRIEF.

HUGH BOYLE was arrested and held to answer Thomas Foley for surety of the peace. Alderman McMasters will hear the case to-day.

THE Indiana *Messenger* says, J. J. Campbell, Lieutenant of the police, Second District, Pittsburgh, is the best looking policeman the editor ever saw in Pittsburgh.

THE pupils of the West Liberty school, in charge of Mr. Lindsay, assisted by Miss Wible, gave a literary entertainment at the school house in that place Thursday evening, which was largely attended and was pronounced by all present to be a very creditable affair.

WM. WARD was arrested on a warrant issued by Alderman McMasters yesterday, at the instance of James Gannon, who alleges that the accused obtained from him oats to the value of $36 by false and fraudulent representations. Ward was held for a hearing.

SEVERAL months ago a petition was presented by sundry manufacturers and citizens of East Birmingham, to the Councils of said borough, praying for the opening of Twenty-third and Twenty-fourth streets, from Carson to Water streets, but it seems that the petition is buried in the committee. Another petition is now in circulation, which will be presented at the next Council meeting, praying Councils to discharge said committee from further consideration of the subject, and to refer the same to a special committee.

A Discovery.

While wandering up Fifth avenue last evening we noticed the "let" had been removed from the second floor of 29, Fifth avenue. Dropping in at Sands & Reineman's, who occupy the first floor of No. 29, we learned that the room is being fitted up by a lady as a piano and organ establishment. In a few days Mrs. Hale will be prepared to offer to the public the largest stock of pianos and organs to be found in Pittsburgh, and at the very lowest prices. We understand that Mrs. Hale has secured the agency for the Dunham & Sons and Stanley & Sons pianos. Both of these makes are favorites in Pittsburgh, and speak well for the lady's taste. We did not learn for what makes of organs Mrs. Hale is agent, but we have no doubt, judging from the names of the pianos, that the organs will be equally first class. There is a rumor afloat that Mrs. Hale intends selling at very low prices in order to compete favorably with those established in the music business. As we are not engaged in the music trade, Mrs. Hale has our very best wishes for her success, and we would suggest that our readers give her a call at her establishment, 29 Fifth avenue, (up stairs).

Get the Best.

Purchasers in the country, who are unable to visit the manufactory themselves, should be careful, in ordering crackers from their grocer, to specify *Marvin & Co.'s* manufacture. Those who desire a superior article of crackers, cakes, or biscuit, should remember to send for Marvin & Co.'s, if unable to supply themselves personally at the bakery, Nos. 91 and 93 Liberty street. CASES IN WHICH DISCUSSIONS AROSE.

While the case of Frederick Colwes, of South Pittsburgh, was being heard, the applicant, on cross-examination, stated that he entertained as many as seventy-five or eighty strangers in a year.

Mr. Bruce raised the point that this did not establish the necessity of the tavern. Here was a man keeping up a house of ten rooms, ostensibly for the purpose of accommodating the traveling public, and he swears that he does not lodge more than eighty in a year, or about an average of a man and a half each week! The receipts from this source would probably not exceed $120 per year, and upon this showing the main purpose and business of the applicant was *not* to accommodate travelers, but to retail liquors to persons residing in the community. It followed, as a natural inference from testimony of the applicant, that he made his livelihood from his bar, and not from his dining-rooms and bed-rooms. If the applicant did not have the privilege of selling liquor his house would not be kept open a single day. The strangers and travelers would, in that case, receive no consideration at his hands. Mr. Bruce, under the facts and circumstances in evidence before the Board, asked that the license be refused because the necessity for the tavern had not been shown.

Mr. Moore, counsel for applicant, replied that so far as proving the fact of necessity was concerned, the principle assumed by Mr. Bruce was correct. But the Board, in applying that principle, should remember that there were several classes of strangers and travelers in the community. The man of wealth would be ready to say that there was no necessity for half the small lodging places in the county; but the Board must not forget that the poor emigrant cannot take lodging at the Monongahela House or the St. Charles. What one class may regard as unnecessary, another finds absolutely essential.

Mr. Bruce stated that the people were not disposed to interfere with regular taverns, no matter how humble they might be, but they are determined to prevent the licensing of mere drinking houses and beer halls under the guise of taverns.

STANDING FOR HIS BROTHER.

When F. Rodgers, of Ormsby borough, had been examined in chief, he was asked whether he really kept the house and owned the goods. His counsel, Mr. McCarthy, instructed him that he need not answer, but the Board ruled the question proper. Rodgers answered that he owned part of the goods, and his brother, who formerly kept the house, owned part. Mr. Bruce then put the flat question whether the applicant did not apply for the license because his brother had been convicted of illegal liquor selling, and dare not apply for himself? The witness appeared as though he did not know what to answer, but was relieved from his confusion by the calling of another case.

THE M'KEESPORT RIOT AGAIN.

When Christian Baker, of McKeesport, was on the stand, a witness was called to prove that the somewhat famous "McKeesport riot," which occupied so much of the time of the recent term of the Criminal Court, had occurred at Baker's house. W. D. Moore, Esq., much to the surprise of Mr. McCarthy, counsel for the applicant, appeared and testified that he had heard respectable citizens of McKeesport testify at the trial that Baker kept a disorderly house.

AN "INTOLERABLE DEAL OF SACK."

Fred. Zeagle, of East Birmingham, in answer to a question by Mr. Bruce as to the number of persons which he entertained over night, replied that he lodged about fourteen last year! When asked as to the amount which was realized from the sales at the bar, the applicant answered "about $1,800 a year." Mr. Bruce submitted to the Board that this was "an intolerable deal of sack" to the quantity of bread consumed.

George Kunkle, of East Birmingham, testified that he sold about $1,800 worth of wine and beer, and accommodated about twenty-five lodgers last year.

AN INTEMPERATE APPLICANT.

In the case of Dominick McGuire, of Birmingham, a constable was called and testified that the applicant was an intemperate man; witness had arrested him on the street, and had been called in by his (McGuire's) wife, to quiet him.

SELLS TO CHILDREN.

John C. Dittmer, of Birmingham, was called but did not answer. Four little boys, who had been in the room for several hours, and had been summoned as witnesses against Dittmer, were called before the Board. They were not more than ten or twelve of age, and one of them testified that Dittmer sold him ale at his bar, and made him drunk! The others corroborated his statement. These boys were examined in the absence of Dittmer, because there was a suspicion that he was purposely keeping out of the way.

A WITNESS WHO WAS NOT ASHAMED.

H. W. Buffum, who appeared as a witness for John Keller, of the First ward, Pittsburgh, was asked by Mr. Bruce how many tavern petitions he had signed in that ward. Keller's counsel told Buffum that he need not answer, but the witness replied that he was not ashamed to answer any question which the opposing counsel might ask. The examination proceeded. Q. What is your business? A. Am a bottler of mineral water. Q. Have you not signed as many as a dozen tavern petitions this year? A. I did not count them, but I may have signed that many. Q. Did you refuse to sign the application of any tavern keeper who sold your mineral water? A. I refused to sign some applications. Q. Whose? A. I am not going to give names. Q. Do you remember the name of any? A. Yes. Q. But you will not name them? A. No.

THE SESSION TO-DAY.

The Board announced, before adjournment, that on to-day (Saturday) the fifth list would be called at ten o'clock. After disposing of a few cases on this list, the remaining cases on the third and fourth lists would be called over, and in the afternoon the wards of Allegheny in the sixth list will be called.

Cutlery.

We are pleased to notice the prosperity of our young friend, Mr. M. L. Ehrgott, in the cutlery and agency line of the Beaver Falls Cutlery Company. He has lately moved to the spacious store No. 44 Sixth street, where he now has every facility of showing and displaying his large assortment of first-class wares and notions. The Beaver Falls cutlery is becoming so well known to most of our readers that there is little need of our recommending the articles manufactured by this company, as it is probably well known that they only manufacture from the best of material. Mr. Ehrgott's experience in the business and honorable dealings should give him a large and extended city, and an increasing country trade. To the country trade we cheerfully recommend this house, and they can rely upon their representations and the faithful fulfillment of any orders sent them.

RAMALEY'S SPRING AND SUMMER STYLES.—Five simple, plain and expressive words, and many a compliment has been paid Mr. Ramaley for his excellent taste and good judgment displayed in his selections for our market. His stock is superb, and the most fastidious can't fail to find amongst his choice and varied assortment something that at once pleases them. From the stylish dress hat to the ordinary club or waterproof cap, in variety that will compete with the largest houses in the country. In the gentlemen's furnishing goods line his stock is complete. Give him a call and see the convincing of what we have said.

THE REV. GRAY CASE.

An Amicable Adjustment Likely to be Reached—Explanation of a Member of the Committee as to Why He Refused to Pass Upon the Case.

The friends of Rev. Jno. A. Gray, who, as intimated in the COMMERCIAL of Friday, are endeavoring to effect an amicable adjustment of the pending difficulty, held another conference yesterday afternoon, the result of which looks to the success of the efforts.

Rev. T. N. Boyle, Pastor of the South Common, Allegheny, M. E. Church, a member of the Committee summoned to investigate the charges against Rev. John A. Gray, in reply to the statements abroad, reflecting upon the action of a majority of the Committee, which decided not to pass judgment in the case, says:

"The first error made is representing this as the trial of Mr. Gray. Look at the history of the case. Charges were preferred against the Brother at the last session of the Conference. He was not there to meet them. A committee was appointed to look into and see what ought to be done with them. They did so and reported their action to the Conference, which was indorsed by the Conference. This action was to refer the case to the Presiding Elder of the North Pittsburgh District for investigation. The Elder summoned this Committee to appear. What for? To try Brother Gray? Not at all; but to investigate the case under the direction of the Presiding Elder. It was their duty to do so, and if they found anything in the charges sustained by the testimony they were to so report to the annual Conference, and then Brother Gray would be put upon his trial before a tribunal provided for in the Discipline. Did this Committee have an opportunity to investigate the case? You know that we did not.

The statement is made that the action of the Chairman in his ruling was really the committee. If this be correct, then the committee must be held responsible in conjunction with the chairman. But are they in any sense expected to answer for the rulings. I answer "No." It is the duty of the chairman to rule on all points of law and order, and he alone is responsible for that ruling.

The statement is also made that the charges are in the hands of this committee, and that they should have passed upon them. I believe this is correct, and I believe it is still the duty of the servant of the Annual Conference to give us an opportunity to discharge our duty. But while it is our duty to pass upon them, we are not expected to do so until we have investigated them.

"I say, therefore, for myself, that I am still ready to perform my duty. If I sustained the relation that Brother Gray does to the case, I would demand the investigation as my right, in accordance with the direction of the Annual Conference, and if the prosecution failed to put in an appearance I would proceed with my testimony before the Committee, and then ask for their decision. If injustice has been done to Brother Gray, or if the case is muddled, the fault is neither with the prosecution nor the Committee. My own opinion is that the interests of Brother Gray, the cause of justice and the good of the church will be subserved by calling the Committee together and giving them an opportunity to do what was directed by the action of the last conference. T. N. BOYLE."

AQUATICS.

Gordon Jackson and Henry Coulter Offer to Row Scharf—Double Scull Race Next Saturday.

Some days since William Scharf, the rising young oarsman of this city, whose rowing abilities are pretty well known to the lovers of this species of sport, by reason of the races won by him last season, issued a card challenging J. J. O'Leary, of Worcester, Mass., or any other sculler, with the exception of Coulter, to row a three-mile race. He also offered to row Coulter a five-mile race, providing the latter would give him a minute and a half start. These bold "defis" met with no response from any quarter, but on last evening, as our reporter was informed by those having a knowledge of what is transpiring in boating circles, both Gordon Jackson and Henry Coulter, the acknowledged champion, signified their willingness to accommodate Mr. Scharf.

The proposition of Jackson is to row two races—one for three and the other for five miles, the five mile race to be for a purse of $1,000, and the three mile race for $500.

Coulter agrees to accept Scharf's challenge and allow him a minute and a-half, but insists that the race shall be for six miles. Both the propositions will be submitted to Scharf this evening in all probability, but whether he will accept Coulter's is not known. He cannot but accept Gordon's proposition for a three mile race, having thrown down the gauntlet to all comers. Scharf's friends seem to think a minute and a-half in a five mile race is asking too much, and are of opinion that he can take a minute and beat Coulter.

Scharf is a young man, aged twenty years, and a glass-blower by occupation. He is a member of the McKee Club, Birmingham, and has beaten Henry Best and other amateur oarsmen, considered No. 1 in the profession, in three mile races, and further, has made time that will compare favorably with the best rowers in the country. His friends, and they are legion, have the utmost confidence in his ability to cope with any one whom he determines on challenging, and consequently will back him to the last in any of his undertakings.

The aquatic season will be inaugurated on Saturday next by a double scull contest between members of the Fisher Barge Club. The race will be for a purse of $200, but it is not definitely settled where it is to take place. The contestants are Messrs. Trimble and Sweeny, and Jackson and Taggart. The first deposit of $50 each is up; the second is to be made this evening, and the third on Wednesday evening. We will announce where the race is to take place next week.

Lecture and Music Free.

The regular monthly meeting of the Christian Association will be held at their rooms, corner Sixth and Penn streets, this evening. In addition to the regular business, some of which is important, there will be some excellent music by the choir of the Third Presbyterian Church, under the leadership of Mr. James Digby, Prof. Rohbock presiding at the organ. Miss Mary Dihm and Miss Mary Scott will sing a favorite duett, in addition to good music by the quartette, in which is Mr. Wm. B. Edwards, the celebrated basso, and Mr. Childs, tenor. The public are invited.

The Opera Season.

As was anticipated, there was quite a rush for seats for the performances of the Grand Opera combination, foreshadowing a successful season. The combination is one with which all our citizens is familiar, and needs no intoduction at our hands. The sale of seats will be continued to-day, at Mrs. Charlotte Blume's, Fifth avenue.

Appy Concerts.

The Appy concerts at the Academy of Music on Monday and Tuesday evenings promise to be events of no little interest. The troupe is a very strong one, consisting of Mr. Henry Appy, violinist; Miss S. Alice Bensley, prima donna; Mr. Wm. Macdonald, tenor; Mr. Gustavus Hall, baritone; Mr. Fred. Kenyon Jones, pianist and conductor. The sale of seats is going on at Kleber's, Wood street.

A LARGE SALE.—By reference to our columns it will be seen that Messrs. Stoner & Mariatt intend to close out their large stock of home made carriages and wagons at auction, the sale commencing on Wednesday morning next. Here will be an opportunity for those who wish to avail themselves of getting a tip top rig at inducements seldom offered. Ninety days' credit with approved security, or three per cent. will be deducted for cash on sums above fifty dollars.

A MEETING of the citizens of the Twenty-first ward was held at the school house in said ward Thursday evening to take some action relative to the improvement of Frankstown avenue. It was unanimously resolved to petition Councils to extend the provisions of the Penn avenue improvement act to Frankstown avenue from Penn avenue to Fifth avenue.

MESSRS. CREEDMAN & STEVENSON, at Wilkinsburg, have disposed of their interest in the delivery of the COMMERCIAL to Mr. H. Swift, Justice of the Peace. Our patrons will please leave their orders hereafter at his office.

PENNSYLVANIA RESERVES.—There will be an adjourned meeting of the members of the Western Division held at the St. Charles Hotel this afternoon, at four o'clock.

Public Amusements.

ACADEMY OF MUSIC.—Of the performance of "The School for Scandal" by Miss Jane Coombs and her fine company last evening, we have only room to say that it was most excellent throughout. There was little to criticise—everything to commend. The audience was large, and composed of refined and educated people.

This afternoon's matinee performance will consist of Tobin's comedy of "The Honeymoon." In the evening the company make their last appearance, when "The Wife's Secret" will be performed.

PITTSBURGH OPERA HOUSE.—The "Black Crook" will be performed at both matinee and evening performances to-day. There was another large audience last night.

FIFTH AVENUE OPERA HOUSE.—The Gaiety Comique Troupe, Miss Jennie Engel, Cavanagh and the other stars will appear in excellent acts at the matinee this afternoon. In the evening a grand double bill will be given.

VARIETIES.—The popular matinee will be given at 2:30, and the performance will be excellent. The great Saturday bill will be given to-night.

STATE POLITICS.

The Republican primary meeting in Venango county will be held next Saturday, May 6.

The Beaver *Radical* says: Dr. Shurlock announces his name for renomination for Assembly this week. The Legislature will not adjourn much before the time fixed for our primary meetings. It is the intention of Dr. Shurlock to remain at the post of duty and attend to the interests of his constituents, leaving a solution of the nomination to the people.

The Republican primary election in Juniata county will be held June 3d.

The Toledo *Commercial* Company, incorporated last month with a capital stock of $100,000, organized last evening.

WONDERFUL have been the discoveries of the last three centuries! Shakespeare's genius must have tingled in anticipation of some great discovery like Pier, Dannals & Co.'s cream ale when he wrote, "There are more things in heaven and earth, Horatio, than are dreamt of in thy philosophy."

CAUTION The great popularity, on account of its salutary medicinal effects of SQUIRE'S LONDON EFFERVESCING BI-CARB. POTASSA for which I am Sole Agent, has induced certain unprincipled parties to imitate my label, and palm off as the genuine, worthless trash which bears no resemblance to the imported article.

The Daily Commercial.

SATURDAY, APRIL 29, 1871.

The banquets by Mr. SUMNER to the Joint High Commission (he has given two) would seem to indicate that after all he is somewhere, socially at least, in the domain of our Foreign Relations. It is said that so far from preparing to oppose the forthcoming treaty, he is counted on to give it valuable support, even if, in spite of all, he has not already rendered valuable service in this business. Mr. CAMERON, as Chairman of the Committee on Foreign Relations, is understood to be profoundly engaged in mastering all the international law applicable to the numerous and important questions embodied in the treaty, and this is the reason why but little has been heard of him in connection with the labors of the Commission. It will be his business to review and expound their work when they shall have completed it, a task in which he has been for some time studiously occupied.

WE can readily understand that the report that Mr. FISH will shortly withdraw from the Cabinet may be true; but we are disposed decidedly to discredit the report that Ex-Senator MORGAN will succeed him. Whenever Mr. MORGAN's name has been associated with the Treasury Department his fitness for that position and the propriety of such a selection have been conceded. But for the Secretaryship of State, he possesses no such qualifications, he being simply an intelligent and successful merchant, with very moderate literary acquirements, educated as he could educate himself, at the same time a man of great prudence and solid judgment, and a successful politician who has been rewarded by his party with some of its choicest gifts, more for his services in its behalf than for any qualities of statesmanship. While for the Treasury Department he possesses some excellent qualities, he possesses neither the learning nor culture that would enable him to figure even respectably as Secretary of State; and it is for this reason that we discredit the report.

PARISIAN AGITATORS OF TO-DAY.

With whatever pity the Communistic agitations in Paris are regarded by some, with whatever contempt by others, it is still true that excellent materials for picturesque and interesting historical writing are rapidly accumulating under the movement. Distance in time will throw a certain fascination around the most flagitious of the men engaged in it, and virtuous fathers of families will patiently read a calm, philosophical vindication of the purity and elevation of their motives. The world has become so exceedingly charitable that it no longer believes in the badness of men who become notorious; fame or even infamy during a long period seems a sufficient apology for the blackest crimes. Not only TIBERIUS but CALIGULA has, within the last few years, found writers of note to vindicate his memory from a portion of the reproach that rested upon it, and by some, the worst monsters of the first French revolution, are regarded as entitled to places among the martyrs of humanity. HENTZ, whom THIERS, in his history, calls "the terrible proconsul," and who carried out the horribly cruel decree of the Convention for the punishment of the people of Lyons, used, when very old and near his grave in Allegheny City, to talk with unction about "my virtuous friend, MAXIMILIAN ROBESPIERRE," to the surprise if not the horror of his American hearers. In fact, by a numerous school of so-called thinkers in France, "the man of the Terror" is held in the utmost veneration as one of the most admirable exemplars of all civic virtues. A lover and even a maker of poetry (of a very weak sort), delighting in pet animals and birds, he was naturally sensitive and tender in his feelings as a woman, and mortified his sensibilities by the use of cruel measures in the interest of humanity. A slight hint of the explanation of his character and conduct, deemed satisfactory by tens of thousands of Frenchmen at the present day. The fact is only one of the many elements of the present situation in Paris which connect it with the events of eighty years ago. The heritage of revolutionary character and aptitudes has been transmitted from father to son, and the agitators and demagogues of to-day are constantly trying to revive or reproduce the scenes and events of the past. Happily the spirit of the time and the various changes of society and manners render their efforts in a good degree futile. Paris is, however, full of men who, in mind, heart and even in peculiarities of physique, are very much the counterparts of prominent leaders in the old revolution. The striking resemblance in these respects is not inconsistent with a certain pettiness or dwarfishness of character which places them far below their fathers. They may seem bigger to posterity.

The Reaction in China.

When a great man goes to his grave the world does not feel the full measure of its loss at once. The space which Anson Burlingame filled, and the extent of the power which he exerted, are only now beginning to be understood. There is no doubt that had he lived the doors of the Chinese empire would within a few years have been thrown wide open to the trade, commerce, industry and enterprise of all Christendom, his sagacity was so far-sighted and his influence so great. But ever since his death the reaction against the liberal ideas and tendencies which he planted and nourished has increased, last year cropping out in the massacre of missionaries. It has now become so powerful that the Imperial Government finds itself unable longer to live up to its treaty stipulations. Christian eduation is forbidden, females are prohibited from being taught, no other doctrines than those of Confucious are to be inculcated, missionaries are to be considered Chinese subjects, all female missionaries are to be excluded from the Empire, and compensation for the late massacres is refused. The history of civilization is the history of great men.

AMONG the chief madmen in the Paris saturnalia of horror is a man named Felix Pyatt, editor of the *Mot D'Ordre*, as with bitter satire the organ of the Commune is called. We observe that his name has been quite often mentioned in recent cable telegrams. He figured conspicuously in the stormy revolution of 1848, and was included in the list of exiles. He established himself in the little channel island of Jersey, a domain of the British crown, lying in sight of the western shores of Normandy, starting a paper in the town of St. Helier, devoted to the advocacy of high socialistic doctrines, ignoring all the principles of the Christian religion, and all the restraints of domestic virtue. In the year 1854 or 1855 (we do not now recollect which,) Queen Victoria paid a visit to the French Emperor and Empress at Paris. For this the journal of Pyatt made a furious and odious assault upon her, loading her with approbrious epithets. But the people of Jersey are sturdy loyalists, and this assault stirred them into a ferment. They called an indignation meeting after our American fashion, drew up a body of resolutions which savored very strongly of Judge Lynch, and waited upon the Governor of the Island to demand the instant expulsion of the refugee. A subsequent apology which he printed in his paper, however, mitigated the wrath of the citizens, and he was permitted to remain unmolested. The upheaval of the Paris Reds has again brought him to the front. He delights himself in chaos as others do in order, and will be hardly likely to die in his bed.

THERE was once a kind hearted old lady, whose all-inclusive charity embraced even the devil. "Poor thing," she remarked at the close of a tremendous sermon preached at him—"I dare say he meant better than people imagine." Something of the same feeling with respect to the dethroned French Emperor comes over us when we contrast the utter chaos and misery in which France now grovels, with her condition under the Empire. Cæsarism is doubtless bad, but the rule of the cruel *canaille* who seek by tyranny to make the lives of all others as miserable and brutal as their own, is still worse. Whatever were the shortcomings of Napoleon he gave France a share of the world's good things, increasing her commerce, encouraging her industry, developing her resources, adorning her cities, and inspiring her chronic vanity with the belief hat she was the mistress of culture and civilization. He was a snob, but he did not let the people starve. He was wickedly ambitious, but he freed Italy. He was without conscience, yet under him the people prospered; and if he did not give France what was best for her, it now seems almost certain that he gave her what she most needed. We have scant sympathy with him, it is true; but is the Devil as black as he is painted?

A WRITER in the *World* of the 25th inst. says: "About two hundred years ago a Japanese embassador came on a mission to Louis XIV. When asked by the courtiers what astonished him most in the city, he replied, 'to see myself in it.'" The blunder is not one of the most important into which it is possible to fall, but it *is* noticeable th at one of the best *mots* ever uttered, and besides connected with one of the most interesting incidents in the history of France, should be ascribed to a Japanese and referred to a circumstance of no particular significance by a newspaper which prides itself on the intelligence of its writers. The *mot* was really uttered by Imperiale Lascaro, Doge of Genoa, when brought to France in 1665 by Louis XIV. to beg the clemency of the great King in the palace of Versailles. As Voltaire says "this Doge was a man *de beaucoup d'esprit*. Every body knows that the Marquis de Seignelai having asked him what he found most remarkable at Versailles, he replied, 'it is to see myself there.' (*C'est de m'y voir.*"

IN looking over the Reformed Church *Messenger*, published in Philadelphia, we find that on Easter day, there were admitted to the communion of this branch of the church over 1,300 persons—nearly all by the rite of confirmation. Had all the congregations of the Reformed Church reported the additions made on that day we doubt not that the number would be increased to at least 2,500 souls. This denomination is increasing rapidly in some sections of our country.

A TOUCH OF SAN DOMINGO.

Response to the Report of the Commissioners—Denial of Some of the Statements.

A late San Domingo paper in the interest of Cabral denies that the people of that country, as the Commissioners in their report aver, are overwhelmingly in favor of annexation. It asserts that the Commissioners were explicitly informed that, with the exception of Baez and his adherents, no one desired annexation; that the people of Dominica valued their independence as highly as the Americans did their own, and that Baez had entirely misrepresented the facts in regard to the public feeling of the island. *El Pabellon Dominicano*, of March 31st, characterizes the scheme as "an infamous speculation." Mr. David Hatch also writes to the *Evening Post* that the report of the Commissioners does great injustice to Cabral. He states that Cabral was elected President by the direct vote of the people, but that Baez was chosen by a convention selected by his provisional government. He also denies the assertion that the people enjoy as much liberty under Baez as they did under previous administrations, proving it by a recapitulation of their histories. He censures the Commissioners for restricting their inquiries to the Baez party, and for not ascertaining the exact facts in the case, when they might easily have done so by simply hearing the other side. He declares the report to be unjust toward the people of Hayti, and states that no real apprehensions exist on the part of the Dominicans that Hayti will ever attempt to regain forcible possession of their country. The only trouble is—he charges—that there was a league between Salnave and Baez to support and protect each other, whence the latter's pretended apprehension of invasion from the successor of the former. Alluding to the Commissioners' mention in their report that they had seen "muskets in the hands of prisoners having the Haytien stamp on them," he asks why no statement was made of the fact that arms bearing the United States armory marks are everywhere to be found in the hands of Baez's men, and thinks that it is no greater crime for Hayti to furnish guns to Dominica than it is for ourselves to do so. He says the report is "one-sided and altogether partial;" and the Dominican journal from which we have quoted in another place declares annexation to be "a bargain, a fraud, a robbery."

GENERAL AND PARTICULAR.

A Binghamton paper speaking of Rulloff, says: "He has a table near the door, and with his writing materials and newspapers, and a joke now and then from Merrill (the under Sheriff), manages to get through the day very well. He is still working away on his philology, and is constantly discovering something new to add to his list of notes. Could we shut our eyes to his surroundings and listen to him while in one of his enthusiastic moods on his beloved study we could scarcely believe that he was a prisoner. We certainly think that he takes his confinement about as cool and as unconcerned as any prisoner we ever saw. We have not heard him whine, nor do we think he could be made to unless he lost his manuscript on philology, and then he would say the sooner he was hanged the better."

A young man recently wrote to a New York paper, asking whether it would be advisable for him to marry a "young and tender angel who had never done her own washing or dress making." In reply, the editor advised him to do so by all means, and mentioned a similar case in his own experience, where the bride had never done her own washing, but after marriage she became so fond of the washtub, as not only to work for her own family, but for several families among her acquaintances.

At Chicago recently a married lady, who had been troubled with a tumor on her face, applied to the county hospital to have it removed. She was told to call on a certain day, when the hospital surgeon would give a free clinic to deserving objects. She called on the day designated, was put under the influence of chloroform, and the operation performed; but the woman could not be brought from under the influence of the drug, and in a short time died. The Coroner's jury acquitted the surgeon of any blame in the matter for lack of care or skill.

The Commissioner of Patents has placed in charge of a special examiner the improvement in machinery for using electricity as a motive power, for which caveats are now being filed. A New Jersey inventor claims that the power can be by his invention indefinitely multiplied without increasing the size of the battery or the strength of the current. He has at Washington a two-horse power engine, run by a single cup battery, the expense being no greater than the cost of a battery in a country telegraph office.

The public have so often been warned against carelessness in the use of morphine and arsenic and the fatality attending the same, that they have learned to use caution in taking these drugs as medicine. But of late the great publicity given to Hydrate of Chloral as a soporific for certain forms of disease has brought it into general use amongst those who underestimate its dangerous tendency. Too much caution cannot be used by the druggist in its sale and the patient in using it.

There was a fearful storm in the vicinity of Seaford, Delaware, on Thursday of last week. A man standing on one side of its track describes it as looking as black as the smoke of a locomotive. Apple trees eighteen inches in diameter were snapped off even with the ground, and fence posts set two feet in the ground, without any rails or boards attached to them, were torn out and carried rods away. A great amount of damage was done.

Surprising success, it is said, has attended the planting of oysters on the Pacific coast. Samples found in the Bay of San Francisco, where they were planted fourteen months since, show wonderful development. Ten car loads of seed have recently been forwarded, sufficient in a few years to supply not only the population along the entire coast, but to furnish the whole interior with this most wholesome and delicious article of food.

Application for patents are said to average five hundred weekly, and last week no less than three hundred and eighteen new patens were issued. All these new inventions tend to increase the productive power of the country. They either save labor, produce necessary articles at a less cost than heretofore, or else add something entirely new to the long list of American manufactured articles. In every case they stimulate the manufacturing interests of the country, and make it more than ever apparent that the industries of the nation deserve not only the fostering care but the heartiest encouragement of Congress.

The Philadelphia Society for Alleviating the Miseries of Public Prisions have made an appeal for and appointed a committee to solicit subscriptions toward a fund of $25,000, the income of which is to be applied in assisting the discharged convict to earn his own support.

In the lower counties on the eastern shore of Maryland fields of wheat are already reported out in the head. In Talbot county fields were headed on the 20th. Allowing six weeks from heading to harvest, it should be cut by the first of June, earlier than ever known in that section. The wheat thus far forward is said to be of the Boughton variety, sowed early in October. German red wheat, sowed before the Boughton, in the same locality, is three feet and a half high, but not yet headed.

General Wm. H. Lawrence, the United States Pension Agent, is still among the missing. Many of his friends state that they cannot believe that the dashing soldier who so gallantly held Columbia against the large rebel force under General Forrest, could so far forget his reputation as to steal pension money. They believe that he can produce the receipts should he return, and imagine that he has locked them up for safety with some deposit company previous to sending them to Washington.

A union meeting of members of Christian churches was held in New York, Wednesday, for the promotion of the "higher Christian life," or, as one of the speakers expressed it, "to make the work of grace in church members deeper; not to brighten up an old conversion nor to recall backsliders, but to make the belief in Christ already arrived at deeper and fuller and stronger." This was one of a series of union meetings to be held for this work, and one similar one has already been held. A movement of the same kind is progressing in Philadelphia.

The Washington City Board of Aldermen recently passed a resolution declaring that hereafter corporal punishment shall not be inflicted in the public schools of that city. The resolution forbids punishment by blows or by a constrained position of the person, or by protracted standing, or by the coerced exposure of any pupil to heat or to cold, or to darkness or to solitude, or by denying the privileges of water, or the gratification of any reasonable natural desire, or by detention during intermission and after school hours, or by the requirement of excessive study.

About one thousand citizens of Philadelphia have signed a remonstrance against the passage of an ordinance creating a loan of $500,000, payable in thirty years, for wooden paving. The petition sets forth among other things, that "wood being a vegetable substance is entirely unfit for permanent street paving. In European cities it has been fully tried and tested with all the various shapes and appliances, resulting in complete failures, the authorities prohibiting the further use of wood for the purpose."

The Chief of the Bureau of Statistics reports that the aggregate number of immigrants to the United States from all the world from the year 1790 to the end of 1870, is 7,803,865, including the estimated number of 250,000 prior to 1820. Since 1820 there has been accurate count kept, and the results show that during that period 7,553,865 came in. Of these more than half, or 3,851,750 were from the British Islands, and 2,267,500 were from Germany. Sweden and Norway gave us 153,928, and France 245,812. China sent us 109,502, and British America 242,491. From Paraguay we had one; from the Barbary States and from Iceland, eleven; Syria and the Canary Islands gave us four each; Abyssinia sent us five and Egypt twenty. In the ranks of the "countries not specified" are 233,643. The average capital value of each immigrant is placed at $800, and returns show that the average amount of money possessed by each upon landing is sixty-eight dollars.

New Order of Things at West Point.

The assignment of General Thomas H. Ruger as Superintendent of the West Point Military Academy, is in military and Congressional circles accepted as an indication that the aristocracy, favoriteism and incompetence which have gradually crept into that excellent institution, and out of which the troubles which formed the groundwork of the recent resolutions in Congress have arisen, is to be made to yield to a system of manly discipline, efficiency, integrity and fair play. General Ruger is thirty-eight years of age, a graduate of the class of 1854, standing third upon the list, which embraced some of the very brightest names in the army, served with great distinction during the war as brigade and division commander, and subsequently gave proof of the possession of considerable executive ability as commander of the military district of Georgia under the reconstruction acts. It is said that his appointment was decided on after a careful comparison of the special qualities of all the various officers eligible to that position, upon the grounds of peculiar adaptability and fitness. Under his administration it is expected that the institution will be reformed from the roots upward.

THE cultivation of the Ramie plant is being extensively tried by a company in California. They have 125,000 plants out in nursery form—all designed for supplying the expected demand. A machine has been recently perfected in New Orleans which, it is asserted, can clean eight hundred pounds of fibre in a day with two men and two-horse power to operate, and costing only $500. One of these gentlemen started for New Orleans on the 10th inst., for the purpose of purchasing one and bringing it hither. Arrangements have been made to experiment with the silk worm, and one of the paper mills has agreed to operate upon a few bales of the leaves.

It is said that the Rev. Dr. Guthrie, the able Scotch preacher and writer will visit the United States next fall.

PERSONAL.

Gen. Spinner has been Treasurer of the United States for ten years, and has handled in that time the very large sum of $50,000,000,000.

Lieutenant General Sheridan, Brigadier General Forsyth and Commodore Rogers visited the Royal British Arsenal at Woolwich, on the 13th inst., under the authority of a special order from the War Office. They were received by the heads of the gun factories and other departments, and were shown the process of manufacturing the Woolwich guns in various stages, and other operations which the officers of the Arsenal, in the exercise of the discretion vested in them, usually permit foreigners to witness.

The oldest man in Indiana lives near Gosport, in Owen county. His name is Ross, and he is said to be between 110 and 111 years of age, hale, hearty and vigorous, and in full possession of his faculties. He was not a soldier in the revolution, but relates many incidents of that war that fell under his observation. He saw General Washington the first year in which he commanded the revolutionary war, and often while he was President.

The beautiful Princess Frederica, the eldest daughter of ex-King George of Hanover, is lying dangerously ill at the villa of her father near Vienna. On Christmas day, 1869, she was fixing up a Christmas tree for some poor children, when suddenly a green wax taper which she had lighted fell on her bare arm and burned her severely. Since that time her physicians have been unable to get the poison out of her system, and it is now believed that her life cannot be saved.

An Austrian journalist, who has been taken into the confidence of the Empress Augusta, of Germany, states that while the war lasted the Empress did not sleep more than four hours a day.

PRIMARY ELECTIONS.

Proposed State Law on the Subject.

The Committee appointed by the Republicans of Philadelphia to revise the rules of the party, have reported, recommending the enactment of a general law, applicable to the whole State, "to protect elections of voluntary political associations, to regulate primary elections, and to punish frauds therein." Its provisions are mainly based upon the law of Ohio, approved February 24, 1871, and similar to one enacted in California in 1866, and pronounced constitutional by the Supreme Court of that State. The first section provides that the judges and inspectors, clerks and other officers selected to hold elections "by any voluntary political association or party" in the State, "for any delegates or executive committee, or for the nomination of candidates to public office," shall be sworn to "correctly and faithfully conduct such election, protect it against frauds and unfair votes, and truly canvass all votes cast thereat." The second section prescribes the duty of the judges, and requires them, among other things, to entertain objection to any vote that may be offered on the ground that the person offering "has received or been proved, directly or indirectly, any money, promise or reward for his vote for any candidate, or that he has voted before at that place or some other on that day, on the same election;" upon the party thus objected to refusing to be sworn "that he will truly testify," the vote shall be rejected; but if the oath be taken, and the proper questions be answered satisfactorily and not successfully contradicted by other testimony, the vote shall be taken, and the word "sworn" noted opposite the party's name on the poll list. The third section prescribes the punishment for violation of the provisions of the act by election officers or others, and of persons who make false statements under oath at such elections. On conviction they shall be fined not exceeding $500, and imprisoned not exceeding one year, or both. The fourth and last section provides that any voluntary political association, or any party in city or county, may, by a vote of the Executive Committee thereof, elect to adopt the provisions of the act, or submit the question of the adoption to a vote of the members of the association or party. It is also provided that no expense shall be incurred to the county or State in the conduct of elections under the act.

The Former Home of Jeff. Davis.

A Chicago gentleman who recently accompanied Jefferson Davis on a visit to the plantations in Mississippi formerly owned by Joseph E. Davis, now diseased, writes: These plantations were sold by Mr. Joseph E. Davis, who owned them both, to his favorite freedman, Ben. Montgomery, for $300,000, payable at the end of ten years (1st of January, 1876), interest at 6 per cent. payable annually. Ben., who is very black, but thoroughly educated before the war, met us and gave us a breakfast, waiting on the table himself, but not offering to take a seat. After breakfast, we had a carriage and rode over the magnificent estate, the extent of which you can form some idea of, when I tell you that Ben. Montgomery made last year 2,500 bales of cotton, and a large quantity of corn. We dined at Briarfield, the former residence of Mr. Jefferson Davis, and now occupied as a residence by the aforesaid Ben., and you will not be surprised to learn that the former slaves of Mr. Davis greeted him with all the warmth of affection that they were capable of expressing. Mr. D. met them cordially, and encouraged them by many kind words. After dinner, at which our wealthy host again waited on us in elegant style, we passed on to a very large and valuable plantation which has been purchased by Ben. Montgomery and added to the Davis estate, and which will add to his crop this year probably 1,000 bales more, making 3,500 in all, if it is a good crop year.

SENATOR FENTON was serenaded at Albany on the evening of the 26th, on which occasion he made a brief speech, patriotic and conciliatory in its character. On the continued ascendancy of the Republican party, he said, "depend the peace of the nation, the protection of the loyal, the security of equal rights, the maintenance of the constitutional guarantees, the rights of the public creditor, and the preservation of the public faith. Their success is national prosperity; their overthrow would be national calamity." He then continued as follows: With such immense interest at stake to imperil its prospects, to incur the risk of defeat is to assume an appalling responsibility. Thus believing, I shall make no warfare upon others. If any is made upon me or any portion of the Republican party, I regret it, not upon my own account nor mainly on account of my friends, but only so far as it hazards the success which is above all personal considerations. For this reason I have deplored the course pursued in reference to the political affairs of our own State. Failing in every effort to effect a better understanding, I shall continue to perform my duties as a representative, and to discharge my obligations as a Republican, disclaiming all responsibility for divisions, and refusing any countenance to internal warfare.

THE New York *Sun* says that all the merchants and manufacturers on Maiden lane who were taxed for the laying of the wooden pavement in that street over a year ago, have signed a paper expressing their satisfaction and delight:

The property owners in Fifteenth street have petitioned for the same pavement. We don't know whose pavement it is, but it seems to be just as good to-day as when it was laid down. There are no inequalities in the surface, and it can be taken up without trouble.

Will the *Sun* just ascertain what is the patent of the aforesaid pavement and give the fact equal publicity?

A CORRESPONDENT, writing from New Orleans concerning the traveling "drumming" business, says: A house or so may stop, but if all do not, those who stop will resume again, as they will soon find their trade drifting from their hands. The season for commercial travelling is over, as the "hot months" have commenced, still a number of New Yorkers have just arrived in this city, and will leave for Texas, where they will remain until about the middle of June, working their way up towards Arkansas. Lediard & Townsend, Nos. 52 and 54 Murray street, New York, have sent out two agents for Texas. The Philadelphia agents have all returned home or gone North.

SIMON HUNT, an authority on the subject, residing at Hudson, Wisconsin, predicts that the potato bug crop this year will be a failure, and advances a very plausible theory, which will interest everybody who lives in the country. The potato bug, as is well known, dies after laying its eggs. The warm weather late last autumn deceived the bugs into laying all their eggs, which operation they should have deferred until spring, lying dormant through the winter. The bugs died according to programme, and the frosts of the winter destroyed all their *larvæ*. Therefore we shall have few, if any potato bugs for the season of 1871.

THE National Committee having in charge the question of the removal of the National Capital to the Mississippi valley, have determined not to call another convention of the friends of capital removal until the next year. The just reason for this decision is, that it is deemed best to postpone the further more public effort for removal until the apportionment of representatives under the recent census, to be made by the present Congress, shall have been given to the central and western portions of the Union that just weight in national legislation to which their population entitles them.

Try It.

It is amusing that the feeble should totter, with uncertain steps, over the face of the earth, in danger every day of falling victims to the morbid influences by which we are all surrounded, when a tested and proven vegetable tonic, capable of endowing them with the vigor they need, is procurable in every city, town and settlement. It might reasonably be thought that after the twelve years' experience which the world has had of Hostetter's Bitters, all would know that its effect is to prevent disease.

At certain seasons the atmosphere is surcharged with the seeds of intermittents, remittents, rheumatism, pulmonary disorders, billious complaints and the like. Persons whose nervous systems are relaxed are the first to succumb to these distempers. Brace up the physical energies then with this potential vegetable tonic. It is the most powerful recuperant which the botanic kingdom has ever yielded to patient research and experiment. Try it. The blindest discipline of the old medical dogmas will at least admit that a tonic and alterative, compounded of approved herbs, roots and barks can do no harm, while the testimony of thousands inviets a trial of its virtues.

Vigor is the thing most needed in these cases as well as in dyspepsia and nervous affections, and Hostetter's Bitters is the safest, surest and most wholesome strengthening preparation that human skill has yet concocted.

Hundreds of physicians have abandoned all the officinal receipts and prescribed this harmless tonic as a preventive and cure for all cases of chills and fever.

FOR the TOILET.

Notwithstanding the fact that mixtures of every description purporting to be peculiarly adapted to the Hair, are to be found in almost every Drug Store and Grocery in the country, the want of an agreeable, cleanly, and healthful dressing for the Hair is evident. Nearly all the preparations in use are made from animal oils, and as a consequence they display a common feature,—they dry rapidly, are more or less gummy, and in time become rancid to offensiveness. This is especially true of the "Pomades" and "Washes" under fancy names, made from the rankest and filthiest of all the Animal Oils. Experience proves that Vegetable Oils meet every requirement for a Dressing for the Hair. They retain moisture for a greater length of time than Animal Oils. They are not injurious, and when used judiciously, produce beneficial results. THE FLORAL OIL, prepared by Messrs. ABEL & CO., from Pure Vegetable Oil, possesses these properties in an eminent degree. It is at once one of the cheapest, most cleanly, healthful, and agreeable preparations, perfumed with rare odors, ever presented to the public. It will be found especially agreeable as an aid in dressing the hair of Children and Ladies. Promotes the growth of the Hair and imparts to it a rich lustre. No Toilet complete without it.

FLORAL OIL, PREPARED ONLY BY CHARLES ABEL & CO., PERFUMERS.

PREPARED ONLY BY CHARLES ABEL & CO., Perfumers, Manufacturers of PRIZE MEDAL VEGETABLE HAIR OILS, No. 172 WYLIE AVENUE, PITTSBURGH, PA. Druggists and Dealers, in consulting their own interests and those of their patrons, should send in their orders for FLORAL OIL. Manufactured from Pure Vegetable Oils. Warranted to give satisfaction. Sold by Druggists and Dealers everywhere. Orders attended to.

WEAK NERVES.

WARNER'S DYSPEPSIA TONIC is prepared expressly for Dyspeptics and those suffering from Weak Nerves with habitual Constipation. There are very few who have not employed physicians for years to remedy what this preparation will do in a few weeks, by strengthening the Nerves, enriching the Circulation, restoring Digestion, giving Strength mentally and physically, enabling those who may have been confined for years to their rooms as invalids to again resume their occupations and all the duties of life. One trial is all we ask to enable this remedy to recommend itself to the most skeptical. It is a slightly stimulating tonic and a splendid appetizer; its strengthens the stomach, and restores the generative organs and digestion to a normal healthy state. Weak, nervous and dyspeptic persons should use WARNER'S DYSPEPSIA TONIC. For sale by druggists. Price One Dollar. TThs

LOUISVILLE
CEMENT.
The Best. The Cheapest.

This Cement has by far the most extensive sale west of the Alleghanies.

Most of the Public Works of the West and South for thirty-five years have been constructed with it.

Though of acknowledged superior strength and quality the Manufacturers are determined to put it in all the principal markets at prices to compete with inferior brands.

It takes more Sand than any other Cement, and is cheap enough in Pittsburgh to supercede all common lime in the foundations of good buildings.

FINANCE AND TRADE

FRIDAY EVENING, April 28, 1871.

The tone of the local money market is decidedly asier, and money is in better supply, both at the anks and discount houses, and with private lendrs. Good paper can more readily be placed, and he brokers are seeking profitable investments for he employment of large amounts of idle money. Allegheny Valley bonds were offered to-day at 95 nd commission. Connellsville 7s are stiff at 95 and ommission. A lot of the Pittsburgh and Connellsille 6s, being the first mortgage loan on the Turtle reek division, is in the market, offered at about 86 nd accrued interest. This is a prime security, and vill find ready sale. Bank shares are quiet, without material change in prices. Columbia is offered at bout 17, in small lots.

—The New York Stock Board quotations to-day ndicate a halt in the downward tendency of prices, nd the market closes with a general recovery. A ispatch says: According to street report the ampaign for another upward turn is again fairly inugurated, a large short interest having been ecured, and the street is once more as bullish as of ore.

The New York *Evening Post* says: The fall was ollowed by a quick recovery, although the market ontinues extremely feverish. There seems to be a isunderstanding between the different cliques, and here are signs that a regular party has been organzed to depress prices. The first break was made y the cliques for the purpose of getting a "short" nterest.

It now is not so clear but that the cliques made a istake, as outsiders are getting more frightened an the cliques desired, and seem inclined to get ut of the market entirely. Should they do so the liques would lose the purchasers they expected to nd for their stocks at much higher prices.

The *Commercial Advertiser* says: The dealings howed a mixed feeling of steadiness and caution. he opinion seems spreading that the upward moveent will soon revive, but it will take a little more me to measure the losses caused by this disturbnce. The more careless class of brokers have been oing much business with insufficient margins, a roceeding of which they have the most of the exitement, and in the long run their legitimate share f the losses. The business that is done without ood margins is always injurious, though unfortuately the losses are not confined to the houses who iolate the proper rules of business in their haste to ake commissions. It is perhaps too much to expect perators to be prudent when their brokers are reckss; otherwise we might remind speculators that arge margins are a better guarantee of success than ost men's best judgment.

RODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL,
FRIDAY, April 28, 1871.

REMARKS.—Rain has fallen in considerable quany for the past twenty-four hours, but whether ere will be a "coal boat" of any other "rise," reains to be seen. The only change we have to note prices is in the matter of flour, mills having reuced their rates 20c ℘ barrel all round. We may d, however, that stores are firm at former quotaons, and some choice brands are even held an advance of 5@10c ℘ barrel. Grories are still very active. Bacon and prosions move along quietly, with a fair local demand ported. Cheese is still in light supply, and prices e firm. Butter—choice is short of the demand, t is coming in more freely. Eggs are not so plen, and prices are firmer. Potatoes are in fair deand. The produce market was never, at this ason of the year, better supplied, the same being ne of the local market. Trade in all its varied anches is buoyant, and sellers and buyers alike em satisfied with the situation.

PITTSBURGH OIL TRADE.

OFFICE OF THE PITTSBURGH COMMERCIAL,
SATURDAY, April 29, 1871.

REMARKS—The market continues quiet and not very active; buyers were shy and not disposed to purchase more than sufficient to meet previous engagements. This, however, has been the situation for some time, and how long before there will be an improvement in the oil trade would be something difficult to find out. There is very little enquiry for export.

CRUDE.

The following are the nominal prices for the various deliveries: Spot 10½c; April 10½c; sellers' option till July 10½c; buyers' option till July 10½c; sellers's option all year 10½c; buyers' option all year 12½c.

SALES.

1,000 bbls June, S. O.	$10¾
600 bbls Spot	10½
500 bbls June	10¾

REFINED.

We have nothing new for the information of our readers; dullness was perceptible in the market. We quote nominally: Spot, 23½@22½c; April, 22½@ 22¾; May, 23@23½c; June, 23½@24c; July 24½c; buyers' option till July, 24c. Later in the day the sales were:

500 bbls. April	22½
1,000 bbls. last half May	23¼
500 bbls. May	23¼

[Western Union Telegraph Line.]

NEW YORK, April 28, closing on the 27th.—Crude in bulk firm at 12¾@13c, with 2,000 sold at the inside. The sales of crude in yesterday's issue was incorrect; they should have read 2,600 bbls. Refined dull and weak at 22½c; sales 2,000 bbls at 22½c; 500 bbls resale of contract, at 22½c, and 3,000 bbls S. O. first half June at 23½c. Philadelphia delivery stronger, closing at 22½c for April; sales 3,000 bbls first half May at 22½c; 2,000 S. O. last half May at 22½c, and 500 April at 22½c.

TITUSVILLE, April 28.—The *Courier* says: The transactions to-day show some improvement over those of yesterday, 2½c advance being received in some instances. Rouseville was the chief point of activity, and at that point nearly 10,000 barrels changed hands, principally at $4, and holders are firm at that figure for regardless. On the upper road very little was done, holders being too far from buyers in their estimates of value. At Oil City the market was dull, without change in price, $4 20@4 25 being about the figures.

PETROLEUM CENTER, April 28.—Market quiet at $4 00.

TITUSVILLE, April 28.—The market is firm and active at $3 80 to $3 85 on the upper creek.

ROUSEVILLE, April 28.—The market is quiet with no sales this morning; quotations $3 90@4.

OIL CITY, April 28.—The market is quiet but firm for 47 gravity; on the lower road held at $4 00; the same at Oil City $4 20 to $4 45.

PHILADELPHIA, April 28.—The market is firm; standard white 22½@22½c; April, 22½@22½c; May, 23¼; June, 23½c; July, 24½c; cases 27½c; crude, 12½c.

[By Pacific and Atlantic Line.]

OIL CITY, April 28.—Market firm with considerable demand but not many sellers; sales on lower creek at $4 00—holders ask $4 05@4 10. Oil City $4 20 to $4 25. No sales.

PETROLEUM CENTER, April 28.—Market quiet and firm at $4 00.

TITUSVILLE, April 28.—Market quiet; $3 82½ to 3 85 bid for spot; $3 90 bid for regular, $3 95 asked.

PLEASANTVILLE, April 28.—Market dull at $3 50.

ROUSEVILLE, April 28.—Market quiet and firm; offering $4 05 for regardless; sales at these figures.

TIDEOUTE, April 28.—Market quiet and very firm at $3 95.

PHILADELPHIA, April 28—5 P. M.—Crude 12½c; refined—April 22½c; May 23¼c; June 24c; July 24½c; August 25c.

OIL CITY, PA., 5 P. M.—Market firm on lower creek, $4@4 05; Oil City $4 20@4 25; sales of 600 bbls on Lower creek at $4; sale of 2,050 bbls at Oil City, low gravity, at $4 30.

NEW YORK, April 28, 4 P. M.—Market quiet and prices remain unchanged; very little doing to-day; crude 13c and nominal. Refined—spot 22½c; cargo lots 23c; one sale of 2,500 bbls at 23c.

IRON MARKET.

NEW YORK.

April 27.—American Pig—As for some time, the business has been small, as coal cannot be had either to produce or melt iron, so that consumption and production are both curtained. Some contracts have been made for future delivery, at prices ruling: 1,600 tons Hudson Nos. 1 and 2 extra, resold at $34 to $35 for No. 1, and $33 to $34 for No. 2, at the furnace; 250 tons Crane Gray Forge, at Hoboken, on private terms. The stock of hard irons is exceedingly small, and any lots sold command fancy prices. It is thought that iron will advance when the coal difficulties are settled, for many customers are about or entirely bare of iron, and some who have contracts have put off their execution on account of the high price and scarcity of coal, and the resumption of mining must cause a large demand for iron. We quote: Foundry No. 1, $35 to $36; No. 2, $33 to $33 50; Gray Forge, $32 to $32 50; white and mottled, $30 to $31.

Scotch Pig—The stock here is light, but there is a good deal on the way, considerable of which has been sold to arrive, mostly on terms not made public, and partly at prices which would not buy now. We note sales of 250 tons Glengarnock to arrive, on private terms; 175 tons Gartsherrie on private terms; 200 tons Eglinton, to arrive, at $32; 100 tons Coltness, at $33 75, currency, and $31, gold. We quote: Gartsherrie, $34 to $35—$34 to $34 50 from ship, and $35 from yard; no Coltness to quote; Glengarnock, $33 50 to $34; Eglinton, $32 50 to $33.—*Iron Age.*

IRONTON.

April 26.—Pig iron remains about the same as at our last report, with, if anything, a more moderate demand.

The low water, which is unusual at this season of the year, prevents shipments of any considerable quantities to Pittsburgh, and but little is moving down the river.

We quote as before:

Foundry hot blast No. 1	$34@36
Foundry hot blast No. 2	33@35
Mill hot blast	32@34
Cold blast, carwheel	56@63
Bituminous Belfont	32@35
Bituminous Ashland	32@35

Nails are still in good request at full rates.

Bar is brisk and the mills continue double turn.

Hecla will start up in about ten days. Grant and Center are doing well; Monitor also.

The extraordinary dry weather this spring has been a very great help to our furnace men in stocking up.—*Journal.*

Philadelphia Market.

PHILADELPHIA, April 28.—Flour dull but unchanged; Indiana and Ohio $7 00@7 75. Wheat dull and a shade lower; red western $1 58@1 65. Rye quiet and unchanged. Corn steady; mixed western 71@72½c; yellow 75c. Oats 65@66c. Provisions depressed. Whisky dull at 92@ 93c.

PITTSBURGH LIVE STOCK MARKET.

OFFICE OF THE PITTSBURGH COMMERCIAL,
FRIDAY, April 28, 1871.

Cattle.

The arrivals of cattle not so heavy as during the early part of the week; but prices have not improved, and quotations remain about the same as yesterday. A good many cattle shipping out on first hands. The market is most over for this week and prices have ruled full 50c lower than last week. Below find some sales which will serve as an index to the market, at rates current to-day: Extra, 1,200 to 1,500, steers, $6 75; good to to prime, 1,100 to 1,200, $6 25@6 50; common to medium, 1,000 to 1,100, $5 75@6; bulls, stags and cows, 800 to 1,500, $4@5 25; stock steers, 800 to 1,000, $5 50@5 75.

Hogs.

The arrivals of hogs continue fair. The quality is good and a great many remain unsold. The market was dull to-day, and devoid of any interest. The supply largely exceeds the demand, and prices are still dull and drooping. The following are figures at which hogs are selling to-day: Extra Philadelphia $6 25; good to prime Philadelphia, 225 to 250, $6 00; good to prime New York, 180 to 220, $5 50@6 75; stillers, $5 00@5 25.

Sheep.

The arrivals of sheep light to-day. The market continues fair and sheep are selling readily at good prices. Wooled sheep sell better than clipped. During the past week the market has been very good, and sheep sold at prices as high as at any time for the last two years. If the run should prove light the coming week it looks as if present figures would rule the market. Following are current rates: Good to prime, 85 to 90 lbs $6 50@7 00; decent to fair, 75 to 80 lbs, $6@6 25; mean to common, 70 to 75 lbs, $5 00 @5 50; foot rot and scalawags, by the head, $2 00; clipped, $4 00@5 25.

WEEKLY REVIEW OF THE PIG IRON AND BLOOM MARKET.

OFFICE OF THE PITTSBURGH COMMERCIAL,
SATURDAY, April 29, 1871.

The market for raw irons continues inactive, and is substantially as at date of our last review.

There is a still further falling off in receipts, and during the last week almost the entire receipts of standard forge pig were required on prior contracts, practically exhausting this description of stock in commission hands. The demand, however, has been very light, and confined to the most exigent wants of consumers.

There is an utter lack of tone or vim in the trade generally, which tends to induce feelings of distrust and doubt, without, perhaps, any substantial reasons for it. We hope for more activity in another week.

We are reported the following sales:

Bituminous Coal-Smelted from L. S. Ore.

500 tons medium gray red short at furnace	$33 50—4 mos
300 tons white and mottled short at furnace	33 00—4 mos
100 tons close gray, at furnace	33 00—4 mos.
100 tons white forge, at furnace	32 50—4 mos.
40 tons close gray, at furnace	33 00—6 mos.
100 tons gray, from yard	35 00—4 mos.
100 tons mottled red short, to arrive	34 00—4 mos.
100 tons Gray Forge, to arrive	35 00—4 mos.
50 tons Gray Forge, to arrive	35 00—4 mos.

Boats Announced.

St. Louis	Wild Duck	Anawalt.
St. Louis	Rover and barges	Gray.
Nashville	Brill	Cox.

THE marks last evening indicated three feet six inches and rising slowly. The weather was cloudy with occasional showers. The indications are that there will be a rise before Monday.

THE towboat Wild Duck is receiving for St. Louis, but will not leave until we have more water.

THE packet Arlington is still receiving. She will leave on the first water.

THE towboat Mary Davage and barges are announced for St. Louis.

THE telegraph yesterday reported three feet six inches at Brownsville and rising.

THE packet Granite State left for Portsmouth with a good trip.

THE Telegraph yesterday reported two feet water at Greensboro.

THE Telegraph yesterday reported twenty-three inches water at Oil City.

THE fine packet Arlington, Capt. D. Moore, will take her departure for Cincinnati on Monday.

CAPT. LYLE'S new towboat arrived yesterday from Freedom.

THE towboat Wild Duck and barges are receiving for St. Louis and will leave on the present rise.

THE packet St. Charles, Capt. C. A. Dravo, will leave Cincinnati on Tuesday for this city.

CAPT. JOHN A. WILLIAMS wants a new boat 200 feet long and 40 feet beam. We suppose he can be accommodated.

THE steamer Carrie Brooks broke her shaft at Buckhill bottom on Thursday. Her passengers were brought to this city by the Granite State.

A LIGHTER, loaded with coal from barges at the head of the canal, sunk on Wednesday morning. It can be easily raised.

SENSIBLE.—The City Council of St. Paul are about to reduce wharfage taxes so that boats will not pay over $15 for each trip.

THE Natchez will henceforth make two trips a week between New Orleans and Vicksburg, leaving New Orleans every Wednesday and Saturday.

THE Exchange left St. Louis for Pittsburgh with 100 tons pig iron for Pittsburgh, and 250 tons of ore for Wheeling. She had also a lot of hemp, fire clay, etc.

THE packet West Virginia, Captain Donaldson, takes her departure this day at 3 P. M., for Brownsville, Geneva and Morgantown—if the water will permit.

THE United States mail packets on the slack-water leave daily at 8 A. M. and 5 P. M. These boats, all side-wheelers, built expressly for the trade, are in charge of experienced and attentive officers.

A COMPANY has been organized for the purpose of building a steamboat to run between Point Pleasant and Charleston, Virginia, and the necessary amount of stock has been subscribed.

PILOT Harrison Kelso, of the steamer United States, was married to Miss French, of Rising Sun, Ind. The bride is the daughter of the late Captain French, an old river man.

OFFICIAL SURVEY OF THE OHIO RIVER FROM PITTSBURGH TO CAIRO.—At the request of our river friends we have published a third edition of this important table, with various improvements. It can be obtained at the COMMERCIAL office at ten cents per copy, or three copies for twenty-five cents.

☞ SPECIAL NOTICE TO NEW ORLEANS SHIPPERS.—The fine steamer Arlington will positively leave for Cincinnati Monday, May 1st, at 12 o'clock, giving through receipts for freight to Evansville, Cairo, Memphis, Vicksburg and New Orleans. Apply on board or to Flack, Collingwood or Fairman.

THE time of the two best stern-wheel steamers in their recent New Orleans and Red river trips, was as follows: New Orleans to Shreveport—John T. Moore, 2 days 17 hours and 40 minutes; Red Cloud, 2 days 17 hours and 45 minutes.

THE St. Louis and Memphis Packet Company have contracted with the Mississippi Valley Foremanizing Company to foremanize their new steamboat City of Helena and the steamer Julia. The company will also foremanize the wharfboat of the Keokuk Packet Company at St. Louis.

THE Chas. Bodmann, in bad position on the falls, has been moved a foot, and now lies easy. Three feet of water will put her in the river. It will be a long while, however, until the three feet of water comes. But then, if she lies easy, she is making as much money as if she was afloat, it not more.

CAPTAINS O'BANNON AND GUNNISON, of the Alabama river steamers Mary Swan and Emma No. 2, are introducing low rates on that stream. They advertise in Mobile papers as follows: Will carry freight to all way points and Wetumpka at four and six bits; corn thirty cents per sack; oats forty cents per sack; molasses and whisky one dollar per barrel.

IT is a fact not generally known that the Thompson Dean was a larger boat in width than the James Howard is. Here are the figures: Thompson Dean —Length, 290 feet; breadth, 55 feet 8 inches; floor, 50 feet. James Howard—Length, 320 feet; breadth, 55 feet; floor, 53 feet.

THE fine light draught packet Brill, Captain M. A. Cox, takes her departure this day, positively, for Cincinnati, Louisville and Nashville. This boat has fine accommodations, and is in charge of careful and attentive officers. The first clerk is Adam Jacobs, Jr., an officer who is very popular and one who will see that passengers have the best of attention.

CINCINNATI.—Thursday's *Commercial* says: Dull along the levee yesterday, the rain interfering with shipments. The Chilo packet Kate Robinson is advertised for sale. A dispatch received by Captain John Kyle, yesterday, announces the death of Mrs. Means, wife of Thomas W. Means, of Hanging Rock, Ohio. The deceased was a descendant of the oldest families in Ohio, and highly respected by a large circle of relatives and friends. Captain C. A. Dravo will drop the St. Charles down to the levee in complete repair, on Monday, and depart for Pittsburgh on Tuesday, if there is sufficient water for her to navigate with ease and safety.

IT is stated that Joseph Nimmo, Jr., who was nominated Supervisor General of Steamboats, was not confirmed because it was discovered that he was not a practical engineer, and lacks the qualifications prescribed by law for the office. He was generally opposed by the Western Senators, who are most interested in having a competent man to fill the office.

THE New Orleans *Bulletin* of Monday says: Rates to all points running low enough to suit the most penurious shipper. Iron for the West continues plentiful at cheap figures. Travel rules slack and bids fair to remain limited, even during the approaching warm spell, for want of surplus means in the community. Boatmen are despondent, feeling they have a hard year's work for nothing. Many of them would gladly sell out and quit steamboat stock forever. River here nine inches below high water mark of 1862.

GOLD.

Gold opened at 111, declined to 110⅞, advanced to 111⅛, closing strong at the latter figure. The Assistant Treasurer paid out $470,000 on account of the May interest, making a total of $4,000,000. The shipments to-morrow are estimated at $1,500,000 to $2,000,000. Loans were made at from 1 per cent. for carrying to 1-64 of 1 per cent. for use. Clearances about $42,000,000.

GOVERNMENTS.

Governments opened steady but closed strong at about ⅛ advance. The principal purchasers have been foreign bankers.

STOCKS.

Stocks opened steady, after first call declined a little, but almost immediately rallied to the opening prices. Later in the day there was another slight decline, but at the close the market was strong and had advanced from 1@2½ per cent. The advance was particularly marked in Lake Shore, New York Central, Ohio and Mississippi, Rock Island and Northwestern. Express stocks were strong. United States extremely so. The "bears" covered some of their stocks to-day at the advance, but still a large "short interest" is uncovered. The "bulls" seem to have complete control of the market, and with easy money and short interest to assist them, predict higher prices. The *Post* says the indications are that the lowest prices for the time being have been seen. The market closed up firm and active.

Hoofland's German Bitters,

A Bitters WITHOUT ALCOHOL OR SPIRITS of any kind, is Different from all others. It is composed of the pure juices, or VITAL PRINCIPLE OF ROOTS, HERBS and BARKS, (or, as medically termed, Extracts), the worthless or inert portions of the ingredients not being used. Therefore, in one Bottle of this Bitters there is contained as much medical virtue as will be found in several gallons of ordinary mixtures. The Roots, &c., used in this Bitters are grown in Germany, their vital principles extracted in that country by a scientific Chemist, and forwarded to the manufactory in this city, where they are compounded and bottled. Containing no spirituous ingredients, this Bitters is free from the objections urged against all others; no desire for stimulants can be induced from their use; they cannot make drunkards, and cannot, under any circumstances, have any but a beneficial effect.

Hoofland's German Tonic

Was compounded for those not inclined to extreme Bitters, and is intended for use in cases when some alcoholic stimulant is required in connection with the Tonic properties of the Bitters. Each Bottle of the Tonic contains one bottle of the Bitters, combined with pure SANTA CRUZ RUM, and flavored in such a manner that the extreme bitterness of the Bitters is overcome, forming a preparation highly agreeable and pleasing to the palate, and containing the medicinal virtues of the Bitters. The price of the Tonic is $1 50 per Bottle, which many persons think too high. They must take into consideration that the stimulant used is guaranteed to be of a pure quality. A poor article could be furnished at a cheaper price, but is it not better to pay a little more and have a good article? A medical preparation should contain none but the best ingredients, and they who expect to obtain a cheap compound, and be benefitted by it, will most certainly be cheated.

The Whole Supreme Court of Pennsylvania Speak for These Remedies.

Who would ask for more Dignified and Stronger Testimony?

HON. GEORGE W. WOODWARD, formerly Chief Justice of the Supreme Court of Pennsylvania, at present Member of Congress from Philadelphia, writes:

PHILADELPHIA, March 16, 1867.

I find "Hoofland's German Bitters" is a good tonic, useful in diseases of the digestive organs, and of great benefit in cases of debility and want of nervous action in the system. Yours truly, GEO. W. WOODWARD.

HON. JAMES THOMPSON, Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, April 28, 1867.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect, JAMES THOMPSON.

HON. GEORGE SHARSWOOD, Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, June 1 1868.

I have found by experience that "Hoofland's German Bitters" is a very good tonic, relieving dyspeptic symptoms almost directly. GEORGE SHARSWOOD.

HON. WM. F. ROGERS, Mayor of the City of Buffalo, New York.

MAYOR'S OFFICE, BUFFALO, June 22, 1869.

I have used "Hoofland's German Bitters and Tonic" in my family during the past year, and can recommend them as an excellent tonic, imparting tone and vigor to the system. Their use has been productive of decidedly beneficial effects. WM. F. ROGERS.

HON. JAMES M. WOOD, ex-Mayor of Williamsport, Pa.

I take great pleasure in recommending "Hoofland's German Tonic" to any one who may be afflicted with Dyspepsia. I had the Dyspepsia so badly it was impossible to keep any food on my stomach, and I became so weak as not to be able to walk half a mile. Two bottles of Tonic effected a perfect cure. JAMES M. WOOD.

REMEMBER THAT
HOOFLAND'S GERMAN BITTERS
AND
HOOFLAND'S GERMAN TONIC
WILL CURE EVERY CASE OF
MARASMUS,
OR WASTING AWAY OF THE BODY.
REMEMBER THAT
HOOFLAND'S GERMAN REMEDIES

Are the medicines you require to purify the Blood, excite the torpid Liver to healthy action, and to enable you to pass safely through any hardships or exposure.

DR. HOOFLAND'S
PODOPHYLLIN,
OR
SUBSTITUTE FOR MERCURY PILLS,
TWO PILLS A DOSE.
The Most Powerful, Yet Innocent, Vegetable Cathartic known.

It is not necessary to take a handful of these Pills to produce the desired effect; two of them act quickly and powerfully, cleansing the Liver, Stomach and Bowels of all impurities. The principal ingredient is Podophyllin, or the Alcoholic Extract of Mandrake, which is by many times more powerful, acting and searching than the Mandrake itself. Its peculiar action is upon the Liver, cleansing it speedily from all obstructions, with all the power of Mercury, yet free from the injurious results attached to the use of that mineral.

For all diseases, in which the use of a cathartic is indicated, these pills will give entire satisfaction in every case. They NEVER FAIL.

In cases of Liver Complaint, Dyspepsia and extreme costiveness, Dr. Hoofland's German Bitters or Tonic should be used in connection with the Pills. The tonic effect of the Bitters or Tonic builds up the system. The Bitters or Tonic purifies the Blood, strengthens the Nerves, REGULATES the Liver and gives strength, energy and vigor.

Keep your Bowels active with the Pills, and tone up the system with Bitters or Tonic, and no disease can retain its hold, or ever assail you.

Recollect that it is DR. HOOFLAND'S GERMAN REMEDIES that are so universally used and highly recommended; and do not allow the Druggist to induce you to take else that he may say is just as good, because he makes a larger profit on it. These Remedies will be sent by Express to any locality, upon application to the PRINCIPAL OFFICE, at the GERMAN MEDICINE STORE, 631 ARCH STREET, PHILADELPHIA.

EUROPE.

BY THE ATLANTIC CABLE.

Emperor William will not Interfere in Italian Affairs.

BERLIN, April 28.—A deputation of Catholics recently had an audience of the Emperor, which prayed his majesty to intervene to prevent the occupation of Rome by the Italian government. It has since been extensively circulated that the Emperor, on that occasion, promised to take some action, but the Prussian *Cross Gazette* has been authorized to contradict this report, and adds that the reply given the deputation did not commit the government to any positive line of action and no promise of any kind was made.

THE SAVAGES.

Indian Depredations in New Mexico and Arizona—Horrible Brutalities—Mutilation of the Victims.

SANTA FE, N. M., Aprill 27.—The *Daily Post* has the following correspondence from Lamissilla, under date of April 22: Mr. Cosgrove, of the firm of J. T. Bennett & Co., left here this morning for the West to look after the last two coaches, as they have not arrived. It is reported—and it is doubtless true—that they have both been captured by the Indians and all on board killed. Every account from the West says the Indians are getting worse and worse, both on and off the road; they have been killing again near Silver City, and a party of soldiers and about fifty citizens are now out in pursuit. Last week the Indians ran off all Mr. Stead's and some other cattle, about a mile from town. Nothing has been heard of him since. Things are coming to a focus in this part of the country, for the Indians seem more determined than ever to annihilate the whites of southern New Mexico and Arizona, and unless some assistance is given pretty soon, it really seems that they have good grounds for hoping to accomplish this end. The Indians seem determined to entirely interrupt the mails between this place and Tucson, and thereby cut off the connection between the two sections of the country.

LATER.—Mr. Hantz, conductor of J. F. Bennett & Co.'s Southern Overland Mail and Express lines has, just reached Santa Fe, and gives the following information: He left Lamissilla on the afternoon of the 24th. News had then reached there that one of the coaches of the Company had been found on the road between Lamissilla and Tucson burned. The body of the driver was also found, with his breast cut open and his heart taken out, split in two and laid over his face. Four ranchmen at San Pedro, on the route, were also killed, also six immigrants coming from Tucson to New Mexico were killed. Some of the captured mail had been found, with checks cut to pieces, and was brought into Messilla by one of the conductors. The Indians a few days since killed two Mexicans and a German at Lone Mountain, and wounded another American near Silver City. There were only fourteen killed and one wounded, as reported by one mail.

NEWS SUMMARY

BY TELEGRAPH.

Cynthia Melcom, a girl of twenty-two, was murdered in cold blood in Denver, Col., yesterday, by a young man named Charles C. Bennett. He accused her of slander.

The city comptroller estimates that it will cost $5,700,000 to run the Chicago government next year.

Bessemer steel works are to be added to the rolling mill at Joliet, Ill., Pennsylvania Railroad capitalists furnishing $2,000,000 for the enterprise.

Hutton Martin shot himself through the head at Uniontown, Ky., yesterday.

CITY MATTERS.

THE PAPER.

Sale of the Press and Material.

The long talked of and frequently postponed sale of the press and material of the defunct Democratic institution, *The Paper*, took place yesterday. There were a number of bidders present, but none of them were anxious to buy at high prices. The press was sold to the proprietors of the *Democrat and Chronicle*, of Rochester, N. Y., for the sum of $12,100, about three thousand dollars less than it cost in New York. The type, cases, stands, &c., in the composing room were sold at less than one-fourth their original cost, in the aggregate netting less than one thousand dollars. The entire proceeds of the sale will not exceed $14,000, which, after deducting the costs and commissions, will not satisfy more than one-half the judgments against the firm or Searight & Gibson, late proprietors of *The Paper*.

CITY MATTERS IN BRIEF.

DETECTIVES Dressler and Cupples have gone to Gettysburg, for the purpose of identifying Billy Forrester, supposed to be under arrest there.

WM. STURGEON, a brakeman on the Pennsylvania Railroad, while coupling cars at the Union depot yesterday, was caught between the bumpers of two freight cars and terribly crushed.

THE Novelty Works, Pennsylvania Railroad shops, and various other establishments of that character, will close on Monday in order that the hands may attend the German Peace Jubilee.

JAMES DAVIS, an employee at the Keystone Bridge Works, had his hand crushed yesterday by a blow from a sledge hammer. He will probably lose three of his fingers.

DAVID WHITFORD, a brick layer, while at work in Bloomfield, yesterday, fell from a scaffold on the second story of a house and broke several of his ribs. He was also injured internally and his recovery is doubtful.

DURING the thunder storm about eight o'clock Thursday night, the barn of Mr. Wm. Carlisle, near Bridgeville, on the Washington Pike, was struck by lightning and totally destroyed, together with its contents. The loss will not exceed $3,500.

JOHN DEITRICH, a tobacco dealer, who was arrested some days since at Sewickly on a charge of defrauding the revenue, had a hearing before the United States Commissioner yesterday, and was held to bail for trial in the sum of $1,000.

A WELL known gentleman states that at the fire on Thursday night the firemen were running around wild in search of the fire plugs. He thinks the members of the several companies should acquaint themselves with the locality of the plugs, so as to be able to find them without trouble at night.

WHY don't the Fire Commissioners re-district the engines, so that some of the outlying districts, supplied with water, may have protection from the ravages of fire? They promised to do so long ago and it is hoped when the Commission reorganizes this matter will receive due consideration.

THE Building Inspector, R. M. Reed, Esq., informed our reporter last evening that permits for the erection of eighty-five new buildings have been issued since the 1st of April. This number is in excess of the number issued for the corresponding period last year, and shows that considerable activity is going on in this line.

A BOOK firm in this city have been written to by a gentleman living in Canton, Ohio, in reference to an order. Two weeks ago, said the writer, I ordered St. Peter, and he has not come yet. The meaning the sentence may be understood by the explanation that St. Peter is the name of a paper, which he desires to have sent him.

ABOUT a year since Dr. G. W. Spencer, and thirteen of his friends invested $100 in the Medallion Mining and Smelting Company of Nebraska, and at once commenced to operate their mines, and yesterday the Doctor received a letter, the statements in which would seem to indicate that the investment has been a profitable one. Over $30,000 silver ore was taken out of the company's claims in two weeks, and their mines are presumed to be worth $500,000.

A RUSTIC gentleman hailing from Canonsburg, Washington county, made the acquaintance of a representative of the *demi-monde* of Tin Pot alley yesterday afternoon, went to her house and while there was robbed of $50 and a lot of valuable papers. He reported his loss at the Mayor's office and a detective arrested the girl, when the property was restored and her release effected.

THE anniversary of the death of "Blessed Paul of the Cross" was celebrated with appropriate religious ceremonies yesterday at the Passionists Monastery, on the hill overlooking Birmingham. Paul of the Cross was the founder of the order of Passionists, and was a few years since canonized by the present Pope. The scenes on the occasion were solemn and appropriate, the music grand, and the address of Father Devlin terse, pointed and suited to the day. We have full notes, which will be used, space permitting, on Monday.

ALLEGHENY.

Teachers' Institute.

The South Side Teachers' Institute met in the East Birmingham School House last evening. The programme of exercises was as follows: Essay, "Theory and Practice" by Mrs. L. Hollis; lecture, "Popular Errors in regard to the Healing Art" by Dr. E. A. Wood; discussion, "What relation do the common schools sustain to the Commonmealth." The discussion was opened by Rev. P. S. Davies, pastor of the Presbyterian Church, East Birmingham, and participated in by a number of the teachers. After the rendition of some singing by the pupils of the East Birmingham public schools, an adjournment until this morning took place.

The programme for to-day's session is: Class drill in arithmetic, by Miss McLean; reading, Miss Pooley; essay, by Mr. W. F. Lindsey, lecture "Currents of the Ocean," by Miss M. Hare.

THE drill of the Heath zouaves at the Keystone rink last evening was a fine affair. Capt. Batchelor was presented with a sword, sash, belt, etc., by Capt. Seibert, in behalf of the company.

SOUTH SIDE.

ITEMS IN BRIEF.

THE Working Boy's Library Association of East Birmingham has been organized.

THE citizens of East Birmingham believe that hose companies are more effective at fires than steam engines would be.

MARY REDDING, Baldwin township, accuses Thomas, her husband, with assault and battery. One of Justice Ammon's police went after Redding.

WILLIAM RODGERS contributed twenty-five dollars to the treasury of East Birmingham for indecent exposure. Justice Ammon moved him to make the contribution.

JAMES NORTON complained of a cess-pool nuisance on the premises of S. Ansell, and Ansell, by way of retaliation, charged Norton's wife with surety of the peace, alleging that she threatened to drown deponent's children. Warrants were issued by Justice Krehan.

A PAIR of shoes and a hat worth four dollars and a half, belonging to Richard Shaw, were left in the hands of James Neal for safe keeping, and, according to Richard's allegations, they have been safely kept, having never been returned. Justice Heisel issued a warrant.

THE Monongahela Water Company have notified the owners of the mills on the South Side, that they will have to supply themselves with water hereafter, else the company will have to give up supplying the boroughs. We suppose the manufacturers will accede to the request, and pump the water directly from the river, as many of them now do.

The New Supplement to the Charter of East Birmingham.

We were shown in Justice Ammon's office, East Birmingham, yesterday, a printed copy of the proposed supplement to the charter of that borough, which has passed the lower House of the Assembly, and is now in the Senate. The charter was drawn by the Borough Solicitor, T. M. Marshall, Esq., and contains sixty-three sections, many of which are taken from the charters of Pittsburgh and Allegheny cities, changed and made to conform with the present laws and ordinances of the borough. The supplement provides that the Councils shall, at their first stated meeting after the passage of the act, divide the borough into two or more wards, in which Aldermen shall be elected and Councilmen chosen to serve for two years—one-half of the Council to retire annually. There are other features in the bill of interest to the borough, but which it is not important to mention here, and besides these, one section particularly, proposes to settle for all time to come the vexed wharf question. As this matter has been under discussion for a number of years, we give the section in full, as follows:

"The Councils shall have authority to grade, pave, macadamize or otherwise improve the ground lying between high and low water line, within the boundaries of this borough, and ordain, establish, levy and collect such reasonable rates or charge for the use and enjoyment of said wharf and landing as may be necessary for the repayment of the sums thereon expended, and provide a revenue for the borough, provided that no special assessment shall be made against the property abutting or fronting on said wharf for said grading, paving or macadamizing or other improvements thereof." The general feeling is in favor of the bill and it is stated upon reliable authority, that only seven persons in the borough are opposed to it—their objections being to the clause relating to the wharf question. In case the supplement is passed, the borough of East Birmingham will be placed upon a splendid basis for consolidation with Pittsburgh.

BUTLER STREET LOTS, NEAR "FORKS OF THE ROAD," LAWRENCEVILLE.

This afternoon, at 2 o'clock, on the premises, will be sold, by order of the Orphans' Court, that valuable property on Butler and Charlotte streets, near to the Forks of the Road, Lawrenceville, which has been subdivided into seven large lots, belonging to the estate of Mrs. Emily H. Hughes. For particulars see McIlwaine's auction advertisement.

JAPANESE

Have no minute division of time as we have, such as minutes and seconds, but say "about three smokes of a pipe," or "three drinks of tea," the Fusi Yami Tea being very delicious—takes about five minutes to fully enjoy one cup. Sold at 140 Smithfield street.

WHOLESALE LIQUOR DEALERS AND RECTIFIERS.

The attention of rectifiers and wholesale liquor dealers is called to the fact that the book prescribed by special No. 71 is dispensed with after the 1st of May next, and a new book much less complicated has been substituted. Parties needing books of this description can obtain them at J. R. Weldin & Co.'s, No. 101 Wood street. Price $2 50.

LOVERS OF FINE ARTS

HAVE YOU SEEN IT?

Seen what? Why the beautiful and elegant "Family Favorite" at Messrs. John Biggert & Son's, 116 Market street. If not go at once.

ANOTHER LARGE PURCHASE.

Mr. McKelvey has just returned from the East, and informs us he has made larger and more extensive purchases than ever. Buying exclusively for cash and in large invoices, his firm will be able to put into the Pittsburgh market a lot of Jagger wagons which they can sell at fifty, seventy-five and a hundred dollars cheaper than they can be manufactured for here. The wagons can now be seen at Schaffer's Bazaar, and buyers are solicited to call and examine their stock before making their purchases.

THE JAPANESE

Count their hours backwards, beginning with nine (9) and descending to four (4), and again returning to nine. One of their hours being equal to two of ours, they have plenty of time to drink the Fusi Yami Tea, which they do early and often. Sold at the F. T. I. Co.'s, 140 Smithfield street.

SIDEWALK REPAIRED.

Owing to the great rush to see the "Family Favorite," at Messrs. Biggert & Son's, 116 Market street, the walk in front of their store began to settle. It was duly repaired, however, on yesterday, and the ladies can now call and see the "Weed" and not find any of the rubbish lying about which was liable to soil their clothes, and prevented many from calling.

Something New for Pittsburgh.

Mr. C. C. Cole, the well-known and highly successful real estate agent, is about inaugurating an enterprise which we feel sure cannot fail to become one of the institutions of the city. Recognizing the fact that many of our business men reside out along the lines of the various railroads, and they are consequently opposed to returning to the city in the evening to attend real estate and stock sales, Mr. Cole has secured a lease of the room over the Third National Bank, on Wood street, formerly occupied by the Board of Trade. He proposes to inaugurate regular semi-monthly auction sales of real estate, etc. These sales will be held every alternate Saturday afternoon, commencing promptly at three o'clock. These hours will accommodate all classes of business men, as it will afford them the opportunity of attending without neglecting business, being subjected to the necessity of deferring engagements, or suffering the annoyance of returning to the city. The first sale will take place this afternoon, and will be continued regularly every alternate Saturday. At the sale to-day several most desirable pieces of property, city as well as suburban, will be offered, together with stocks of various kinds. The sale will be conducted fairly and openly, and every bid received will be legitimate. Parties interested in sales of this kind should make a note of this sale.

The location of the room for the purpose is admirable, being in the very center of the business portion of the city. The property to be offered will be fully advertised previous to the day of sale, so that parties contemplating purchase will have abundant time to make a personal examination. Mr. C. has now some $300,000 of property in his hands for sale, embracing city, suburban and country property, and his sales will consequently offer superior advantages to those desiring to make investments. It is to be hoped that this enterprise on the part of Mr. C. will meet with the encouragement it deserves.

The St. James European Hotel.

The popularity of Mr. James K. Lanahan as proprietor of one of the best conducted and arranged hotels on the European plan in Western Pennsylvania, is becoming to a great extent as familiar as household words with the traveling public. His house far and wide is known as being kept up in first class style and easy of access, being directly opposite the Union Depot. The accommodations of the hotel is one hundred and ten large and spacious rooms, fitted up in good style, not extravagant, but adapted to the wants of the people. The restaurant is supplied daily from the markets with everything, in large and varied assortments, that is to be had, and served up in A No. 1 style. The bar and billiard rooms attached are superintended by a gentleman who attends to the wants of his patrons with respect and uniform politeness.

Sense.

Believing that the press is the people's pulpit, we propose on all proper occasions to offer to our readers what we consider good advice, not restricting ourselves to learned or momentous themes; our programme may even compel us to talk at times upon some rather commonplace subjects, but when we do 'twill be for the benefit of our readers. During the week the public has beheld the spectacle of several of our leading citizens being sued for recovery of a bill for professional services by a prominent dental firm of this city—one side claiming that the charges were outrageously exhorbitant, and the other that the price asked was but a fair remuneration, considering the nature of the case. We do not propose taking sides in this matter, it will go to the Court for settlement, and we do not propose to anticipate the judgment. But we desire to make a text of this subject for the purpose of giving what we regard as sensible advice, in brief, to our readers. First then, there is never any necessity for trouble of the kind in question. There are always professional men who are sufficiently well known that we can patronize, and feel assured that there will be no need to qurrel over the bill. In the dental line we may instance Dr. G. W. Spencer, of No. 254 Penn street, than whom there is no more skillful dentist, nor, for that matter, agreeable gentleman, whose skill is sufficient to satisfy the demands of the most exacting, and whose well known reputation is a sufficient guarantee that no unreasonable charge will be made.

Our advice, then, is, go only to men such as he, and there will be no need to have your private affairs spread broadcast before the public. We have talked with him upon this matter, and can say that his usual charge for filling a tooth is from $3 00 to $5 00, and that it never exceeds $15 00. One of the charges in this case is $40 00 for filling a tooth. These remarks may seem rather pointed and practical, but we wish our advice to be serviceable, so we give it for what it is worth.

Where do all the Organs Go?

Is a question very frequently asked of S. Hamilton & Co., inspired by the great number of their beautiful Taylor & Farley organs sold within the last two months from their new piano and organ salesrooms, at 51 Fifth avenue, but it is not surprising when we take into account the fact that people can purchase a Taylor & Farley organ with the perfect assurance that they are getting a perfect instrument in every particular that goes toward making up a perfect organ. Having been before the public for over twenty-two years, and in all that time keeping pace with the improvements of the times, until to-day they stand at the head of all reed instruments made, as is attested by the fact that many of our first amateur organists are having their instruments exchanged for the Taylor & Farley, another reason so many are purchasing Taylor & Farley organs is that S. Hamilton & Co. are selling regardless of card prices and on terms just to suit purchasers, either in monthly or quarterly payments. Every instrument they sell is fully warranted. S. Hamilton & Co., 51 Fifth avenue, McCallum's Building, Pittsburgh, Pa.

Mellor & Hoene,

Of the great music emporium, No. 53 Fifth avenue, Pittsburgh, are alive with enterprise. They wisely study to know the wants of the people in their line of trade, and leave no effort untried to meet those wants. Hence it is not strange that they should diligently watch every new improvement in the musical art, and give their constantly increasing crowd of customers the benefit of it. And hence, for the reason they are without a rival and are known everywhere as the men to whom to go for the best instruments.

We have put ourselves to the trouble to look inside of their great establishment. It is a bee-hive of stir and industry. Throngs come and go. They have no inferior goods—nothing stale.

They have the Mason & Hamlin organ and the Eureka organ, most perfect instruments, both in design, finish, and musical capacity. The Mason & Hamlin organs are world renowned, and need no word of commendation from us. The Eureka Grand organs have been introduced but a few months, but have in that short time made for themselves a noble history.

Then, in pianos there is the same variety and the same excellence. The Mellor & Hoene Piano is acknowledged to be superior in power, clearness, brilliancy, and sweetness of tone.

We are not able to enumerate the extensive stock. But if our readers want any, we say go, or write to Mellor & Hoene, 53 Fifth avenue, Pittsburgh. And, like the goods they keep, they are men of the best type.

The Feet—Corns and Bunions.

The corn solvent in the shape of a pencil is one of the most wonderful preparations of late years for the cure of those various troubles of the feet which give so much annoyance to those afflicted in that way. There is no trouble this time to those so afflicted, for now one after another of the corns are taken from the feet as if by magic, and leaves the under surface smooth and unimpaired. It is done by a complete and perfect disintegration of the corneous substance, which is uprooted by a painless process, and as much so as if it had never existed. This will be good information to thousands of sufferers who are constantly under the necessity of having their corns pared, when, lo! in a week or two they are back! The corn solvent will do away with all this, and take them out by the roots, so that with ordinary care they will never return. One pencil is sufficient to cure half a dozen of corns. It is equally good for soft or hard corns or bunions. Price 50 cents. Sent by mail anywhere for 60 cents. Sold only at KEYSER'S great medicine store, 167 Liberty street. d*

STONER & MARLATT.

By N. WHITING & CO., Auctioneers.

A Splendid Offer.

200 LOTS

OF ONE-QUARTER ACRE EACH,

Thirty Miles from Pittsburgh, to be disposed of

AT $1 00 A LOT.

The subscriber begs leave to inform the citizens of Fayette, Allegheny, Westmoreland and other counties in Western Pennsylvania, that he has decided to dispose of a Valuable Piece of Property, containing 50 ACRES, AT LAYTON'S STATION, P. AND C. R. R., FAYETTE COUNTY, 30 miles from Pittsburgh, upon the DISTRIBUTION PLAN, the Drawing, as will be seen below, being perfectly fair and honest.

The Ground, Beautiful Meadow Land, will be laid out in the most approved plan, will contain Streets and Alleys, will be an enlargement of the Village of Perryopolis, and will contain

200 Lots of One-quarter Acre Each.

The Property adjoins the thriving Village of Perryopolis, and lies directly upon the re-opened line of the

HEMPFIELD RAILROAD,

Purchased by the Baltimore and Ohio Railroad Company, March 30th, 1871, and which, from the positive assurance given, will be extended from Washington, Pa., to Layton's Station this Summer, and it is highly probable

A DEPOT

Will be erected upon a portion of this Property.

These Lots will then become very valuable, on account of the Railroad Connections with which they are surrounded and the advantages arising from the extension of Perryopolis.

The Distribution Plan or Scheme Proposed is as follows:

On the 4th of July

A GRAND PIC-NIC will be held at WEST NEWTON, Excursion Tickets being issued by the Connellsville Railroad and Monongahela Packet Company. 12,000 TICKETS AT ONE DOLLAR EACH will be sold. These will admit the holder to the Pic-Nic, where the DRAWING FOR LOTS WILL TAKE PLACE.

Twelve Thousand Duplicate Tickets will be placed in the Box and there will be one Lot for every 60 Tickets sold. The Drawing will be done in the usual manner, by fair and impartial persons, appointed for the purpose, and subscribers holding the lucky Tickets will be awarded the Lots then and there, receiving the Deeds as soon as possible thereafter.

Tickets for the Pic-Nic may be obtained of
WM. BARR, No. 25 Fourteenth street, Birmingham;
CHARLES BAUCH, Druggist, corner Second avenue and Grant street;
JOHN W. PITTOCK, opposite Postoffice, or the subscriber,

W. H. WRAY,

AUCTION SALES.

A. LEGGATE, 159 FEDERAL ST., ALLEGHENY.

MAGNIFICENT SUBURBAN RESIDENCE!!

Mr. Ewing's Property, at Osborne, the first Station on the Pittsburgh, Fort Wayne and Chicago Railway, east of Sewickley,

IS FOR SALE.

There are Sixteen Acres of Ground. Five Acres, immediately surrounding the Dwelling, are liberally planted with Fruit and Shade Trees, and handsomely laid out with Walks and Drives. Eleven Acres, north of the Beaver road, contain several good building sites, and numerous Springs of Water, conducted by iron pipes to the various buildings on the premises.

The Dwelling is a very substantial and beautiful Frame Building, occupying a commanding and imposing elevated position, from which extensive scenic views of river, country and village are obtained. It contains, on first floor, a magnificent Hall, 16 feet wide, Parlor and Reception Room, with Bay Windows; Dining Room, with adjoining Pantry; Gentlemen's Washroom, Kitchen, Storeroom, Scullery, Closet and Washhouse, all fitted up with their respective modern appurtenances.

The second floor contains five very handsome, large Bed Chambers, two smaller Chambers, large Bath Room and Water Closets; Private Bath adjoining one of the Chambers; two Cedar Closets, and other Closets and Wardrobes. These Rooms are superbly fitted up with every requisite for comfort and convenience.

The entire House is heated with Radiators, by Benton's Automaton Steam Apparatus. Cellar underlies the whole House, is cemented, and divided into compartments for vegetables, coal, &c.; large Bake Oven, Water Force Pump, and contains a Gasoline Apparatus, by which the entire Dwelling and Carriage Drives are lighted superior to city gas.

Abundant supply of Spring and Cistern Water is diffused throughout the entire premises. The Drainage is perfect. The Outbuildings consist of a first-class Stable of four stalls and large Carriage House, Cow House, Lumber Rooms, Ice House, with Cooling Room, and Servants' Apartments. Spring Water Hydrants at Stable and throughout the Grounds. This is a complete place. As a Suburban Residence it is faultless. Is offered on account of the owner's intended removal.
